## **Part A: Economic and Financial Developments**

# Overview and Executive Summary

In Q2FY17 (Oct.-Dec., 2016), economic activities witnessed a strong growth impulse, stemming mainly from the industry and the service sectors. The large and medium scale industries' output registered double-digit (13.8 percent in October, 2017) growth, aided by the continued improvement in electricity supply and falling lending rates. Around twenty two percent growth of cargo handled through Chittagong Port, strong credit growth in the transport sector, and in trade and commerce (18.8 percent and 11.7 percent respectively) pointed to a robust growth of the service sector activities. Agriculture sector also remained active, benefiting from benign weather condition and timely availability of agricultural inputs and credits. From the demand side, expected growth of private sector credit and a fresh wave of capital machinery import indicated buoyant domestic demand. However, the negative growth of remittance inflow (-17.8 percent) might have some dampening effect on the domestic demand.

Twelve-month average headline CPI inflation kept falling during the Q2FY17and came down to 5.5 percent in December 2016, well below the targeted level of 5.8 percent in the national budget for FY17. This falling trend of headline inflation stemmed from declining inflation in both food and nonfood categories. Twelve-month average nonfood inflation continued to fall due to the diminishing trend of point to point nonfood inflation, while the decreasing trend of twelve-month food inflation came to a halt at 5.4 percent in December 2016 as point to point food inflation had been rising since June 2016.

The movements of money market indicators were loosely followed the program path set in the monetary policy statement (MPS) for the first half (H1) of FY17. Despite a high growth of net foreign asset (18.1 percent) and a satisfactory growth of private sector credit (15.6 percent), broad money (M2) growth (13.8 percent) remained below the program path due to the negative growth of credit to the public sector. On the other hand, the growth of reserve money (19.5 percent) was higher than the target path, implying a negative growth of money multiplier.

Preliminary estimates show that total revenue grew by 17.6 percent (y-on-y) in Q2FY17, while total expenditure rose by 20.1 percent. Consequently, budget deficit edged up to BTD 39.1 billion in Q2FY17 compared to BTD 23.0 billion in Q2FY16. Within the total government expenditure, ADP utilization increased by around 41 percent in the first 6 months of the current fiscal year, though it remained as low as 30 percent of the target in national budget for FY17.

The current account balance (CAB) recorded a deficit of USD 432 million in Q2FY17. The deficit was due largely to the negative growth of remittance inflow and a large deficit in the trade balance even though the trade balance deficit shrunk in Q2FY17 from the level of Q1FY17, owing to the low growth of import payments (0.7 percent). At the same time, the inflow of workers' remittances declined by 17.8 percent in Q2FY17. Despite a deficit in the CAB, overall balance recorded a surplus of USD 468 million because of a surplus of USD 472 million in the capital and financial account.

Bangladesh Bank continued its intervention in the foreign exchange market with a net purchase of foreign currencies amounting to USD 367 million during this quarter. Consequently, the exchange rate

of BDT against USD depreciated to 78.80 in December 2016 from 78.40 in September 2016. Nonetheless, real effective exchange rate appreciated due mainly to the significant depreciation of large trading partners' currencies against US dollar and their low level of inflation compared to that of Bangladesh.

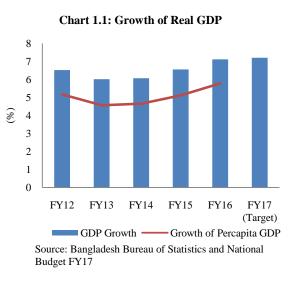

The banking sector indicators depicted a mixed picture in Q2FY17 compared to that in Q2FY16. Capital to risk- weighted asset ratio (CRAR) and asset quality (in terms of both gross and net NPL ratios) showed some improvements, while profitability (both ROA and ROE) and the provision shortfall position of banks against classified loans deteriorated during the quarter under review. The spread of monthly weighted average lending rates and deposit rates in the banking sector was hovering at around 4.7 percent and the interbank money market rate remained stable between 3.5 and 3.6 percent during Q2FY17.

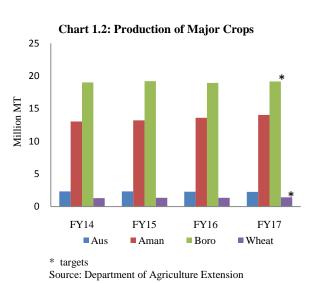

The national budget for FY17 set a target for achieving 7.2 percent output growth while keeping inflation at 5.8 percent or lower. To attain this target Bangladesh Bank (BB) formulated its monetary policy. For the H2FY17, BB set a target for reserve money growth at 14.0 percent, broad money (M2) growth at 15.5 percent and private sector credit growth at 16.5 percent by June 2017.

Looking ahead to FY17, BB's current forecast is that output growth is likely to be more than 7 percent. This was based on current and projected trends of a number of variables including global economic growth, domestic and foreign investment, private sector credit growth, electricity production, growth of capital goods import etc. However, the downside risk to this projection may stem from the dip in remittance inflow and moderate export growth. Though the current level of CPI inflation (12-month average) is below the target, point to point nonfood inflation has already been rising since July 2016 which might put some upward pressure on average inflation in coming months.

# I. Developments in the real economy

1.1 In Q2 FY17, indicators in the agriculture, industry, and service sectors depicted a picture of strong economic expansion. During this period, healthy growth of large and medium scale industries production (13.8 percent) pointed to a strong growth impulse in the industry sector, 11.7 percent growth of bank credit to trade and commerce along with a 21.8 percent growth of cargo handled through Chittagong port indicated a strong growth in the service sector. At the same time, agriculture sector activities also showed strong buoyancy, benefiting from benign weather condition and timely availability of agricultural inputs and credits. On the other hand, various indicators represent a mixed picture of the growth of aggregate demand during the Q2FY17. The on track growth of private sector credit (15.9 percent) signaled a buoyant domestic demand. Moreover, a fresh wave of capital machinery import (around 20 percent growth) pointed to the acceleration of the investment demand. However, the negative growth of remittance inflow (-17.8 percent) might have some dampening effect on domestic demand. At the same time, low growth of exports (5.1 percent) was also reflecting some moderation in the external demand.

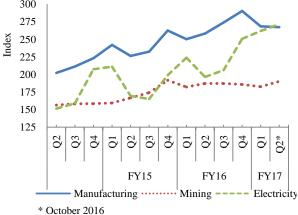

1.2 The *aman* rice crop, the second largest crop of Bangladesh, harvested in the second quarter of fiscal year. According to the Department of Agriculture Extension's data, over 14 million metric ton (MMT) *aman* crop was harvested in FY17, which was 3.3 percent higher than the previous fiscal year's production. This growth can be attributed mainly to higher acreage, while the yield of *aman* remained almost same as the previous fiscal year. Before *aman*, the production of *aus* crop was attained at around 2.3 MMT-which was 1.3 percent lower than previous year's production. Though the potato is harvested in the latter part of the second quarter, the data on production is yet to make available. However, it is very likely that the production of potato would surpass its target (9.6 MMT) as the acreage was substantially higher than the target and there was no weather related disruption.

1.3 The industry sector, which is the main driver of GDP growth, seemed to remain buoyant in Q2FY17, benefited by the continued improvement in electricity production and supply, supportive monetary and fiscal policy. Latest data on the quantum index of large and medium scale industry is available for up to October 2016 which indicates healthy activities. Electricity generation grew by 21 percent on average in the last twelve months (see chart 1.3) which helped robust industry output growth. This continuous growth of power generation helps the manufacturing sector to grow faster. According to Bangladesh

Chart 1.3: Quantum Index of Medium and Large-scale Manufacturing Industries, Mining and Electricity

Source: Bangladesh Bureau of Statistics

Bureau of Statistics data, the large and medium scale manufacturing output rose by 13.8 percent in October 2016 over the same period of the previous year, whereas this growth was 7.3 percent in Q1FY17. The growth of large and medium scale manufacturing industry stemmed largely from the high growth of the production of leather and leather products, wearing apparel, textile, pharmaceuticals, and non-metallic mineral products (see chart I.4). Within the industry sector, construction sector also seemed to register a strong growth, aided by the implementation of government's mega projects and the fresh momentum of private real estate activities. The high growths of cement production (28.7 percent growth in the first four months of FY17) along with high growth of credit to the construction sector (28.9 percent in Q2FY17) propel the momentum of the sector.

1.4 A number of proxy indicators depicted a picture of the robust growth in the service sector activities during Q2FY17. Data on bank advances (see table 1.9 in the appendix) shows that credit (outstanding) to trade and commerce, and transport and communication sector rose by 11.7 percent and 18.8 percent respectively in Q2FY17 compared to the level of Q2FY16. Similarly, cargo handled through Chittagong port picked up by 21.8 percent in Q2 FY17 compared to the level of Q2 FY16. Moreover, in the absence of political instability and weather related disruptions, tourism, hotel and restaurant business also seemed to remain buoyant during the period under review.

# II. Money and Credit Market Development

- 2.1 The monetary policy stance of July-December 2016 was explicitly pro-growth while keeping the average inflation rate at about 5.8 percent and to support 7.2 percent growth target. In line with the target, BB aims to maintain reserve money growth to 11.0 percent and broad money growth to 14.8 percent by December 2016. Space for private sector credit growth of 16.6 percent (including foreign borrowing by local corporate) has been kept well to achieve output growth targets and to accommodate any potential rise in investment.
- 2.2 In December 2016 broad money (M2) growth was 13.8 percent compared with 13.4 percent in September 2016 and 13.1 percent in December 2015. The M2 growth was 1.0 percentage points lower than the programmed level of 14.8 percent for December 2016. The growth in private sector credit increased to 15.6 percent in December 2016 from 15.3 percent in September 2016 and 14.2 percent in December 2015. The private sector credit growth was 1.0 percentage points lower than the programmed growth of 16.6 percent for December 2016. Credit to the public sector growth was negative by 4.3 percent in December 2016 compared with 3.3 percent in September 2016. Net Foreign Asset (NFA) grew by 18.1 percent in December 2016 compared to the growth of 21.1 percent in September 2016.
- A look at the components of M2 shows that currency, demand deposits, and time deposits increased by 22.3 percent, 20.5 percent, and 11.9 percent (y-o-y) respectively in December 2016 compared to the increase of 15.5 percent, 18.3 percent, and 12.5 percent respectively in September 2016. Narrow money or M1 grew by 21.5 percent in December 2016 which was 16.6 percent in September 2016. The money multiplier (M2/RM) increased to 5.0 in December 2016 from 4.9 in September 2016.

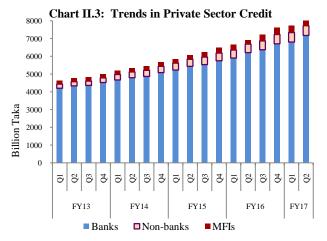

Source: Monetary Policy Department, Bangladesh Bank.

Source: Monetary Policy Department, Bangladesh Bank.

- 2.4 Reserve money (RM) grew by 19.5 percent (y-o-y) in December 2016 compared with 16.7 percent growth in September 2016 and 15.1 percent growth in December 2015.
- 2.5 In December 2016, private sector credit (including banks, non-banks, and micro-finance institutions) remained unchanged at 15.9 percent compared with the growth in September 2016 (Table I.8). Individually, the bank advances to industry grew by 15.1 percent at the end of December 2016, in which industrial term lending grew by 8.8 percent and working capital financing increased by 21.1 percent over the period. In the agriculture sector, the supply of credit decreased by 9.5 percent at the end of December 2016 (of which advances to crops decreased by 9.9 percent while others decreased

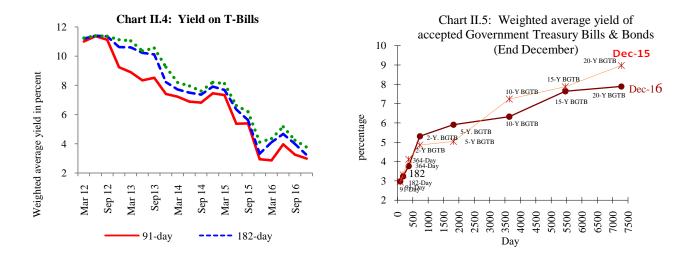

Source: Monetary Policy Department, Bangladesh Bank, Grameen Bank, BRAC, ASA and Proshika

by 5.5 percent) compared to 21.4 percent at the end of same period of preceding year. Advances to construction sector increased to 28.9 percent at the end of December 2016 compared to 17.6 percent at the end of September 2016. Bank advances to transport increased to 18.8 percent at the end December 2016 compared to 11.6 percent at the end of September 2016. The growth of bank advances to trade & commerce was 11.7 percent at the end of December 2016 compared to 13.6 percent at the end of September 2016.

Analyzing the share of bank advances based on economic purpose, it was found that the highest share of bank advances went to the industry sector (37.4 percent) followed by the trade and commerce (36.1

percent), the construction (9.5 percent), and consumer finance (8.4 percent) in December 2016 (Table I.9).

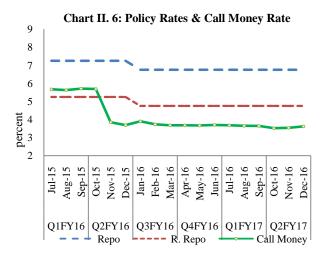

The overall disbursements of industrial term lending by banks and NBFIs increased by 50.1 percent and stood at BDT 195.8 billion at the end of December 2016 from BDT 130.4 billion in September 2016 which was BDT 178.2 billion in the same quarter of the preceding year (Table I.12).

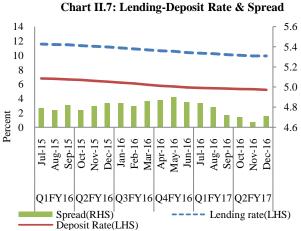

Source: Monetary Policy Department, Bangladesh Bank.

Source: Monetary Policy Department, Bangladesh Bank.

- 2.6 Overall yields on 91-day treasury bill decreased to 2.98 percent in December 2016 from 3.26 percent in September 2016. The rate of 7-day Bangladesh Bank bill was remained unchanged at 2.97 percent at the end of December 2016 compared to September 2016. The rate of 14-day and 30-day Bangladesh Bank bills was slightly edged up to 2.98 percent and 2.97 percent respectively at the end of December 2016 compared to 2.97 percent and 2.96 percent in September 2016. The rate of five-year, ten-year, fifteen-year and twenty-year long-term treasury bonds yields was 5.91 percent, 6.32 percent, 7.64 percent and 7.89 percent respectively in December 2016 (Table II.3).
- 2.7 The call money rate edged down to 3.62 percent at the end of December 2016 from 3.64 percent at the end of September 2016. The spread between lending and deposit rates slashed slightly down to 4.71 percent at the end of December 2016 compared to 4.72 percent at the end of September 2016.

# III. Fiscal Developments

During Q2FY17, preliminary estimates of total revenue and expenditure increased by 17.6 percent and 20.1 percent respectively over Q2FY16. Consequently, the budget deficit increased to BDT 39.1 billion in Q2FY17 compared to BDT 23.0 billion in Q2FY16. The entire amount of deficit financing came from non-bank and foreign sources during the quarter under review (Table III.3, Chart III.1 and Chart III.2) Total revenue and expenditure for the first half of FY17 (H1FY17) were 40.7 percent and 33.7 percent of the budget outlay respectively. Accordingly, the overall budget deficit for H1FY17 amounted to 159.8 billion which was 17.3 percent of annual target of FY17.

Source: Various issue of Budget Summary, Ministry of Finance; Monetary Policy Department, Bangladesh Bank, National Board of Revenue, Bangladesh.

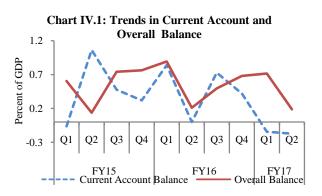

Source Various issue of Budget Summary, Ministry of Finance; Monetary Policy Department, Bangladesh Bank, National Board of Revenue, Bangladesh

- 3.2 During Q2FY17, total NBR tax revenue increased by 18.5 percent to BDT 438.2 billion compared to the same period of FY16 which was 21.6 percent of the target for FY17 budget. Revenue receipts from customs duties, value added tax (VAT), income tax and other sources grew by 18.0 percent, 18.3 percent, 22.1 percent and 13.9 percent respectively during the quarter under review compared to the corresponding quarter of the previous year. The overall NBR tax revenue reached at BDT 802.6 billion in H1FY17 which was 39.5 percent of the target for FY17 and 17.9 percent higher than H1FY16.
- 3.3 The preliminary estimate of total expenditure stood at BDT 572.1 billion (16.8 percent of annual target) in Q2FY17 which was 20.1 percent higher than the same period of FY16. Current expenditure increased by 4.9 percent to BDT 274.4 billion and Annual Development Program (ADP) expenditure increased by 34.1 percent to BDT 227.7 billion during this quarter compared to the same quarter of previous year.
- 3.4 During H1FY17, total government expenditure was estimated at BDT 1147.3 billion (33.7 percent of budget target of FY17 and 5.9 percent of estimated annual GDP), which was 15.6 percent higher than H1FY16. During the first half of FY17, current expenditure stood at BDT 686.7 billion (36.3 percent of budget target of FY17 and 3.5 percent of GDP). The outlay of ADP stood at BDT 335.5 billion in H1FY17 (30.3 percent of FY17 budget or 1.7 percent of GDP) and running behind the whole year target.
- 3.5 The overall fiscal deficit stood at BDT 39.1 billion during Q2FY17 (representing 0.2 percent of GDP) compared to BDT 23.0 billion or 0.13 percent of GDP in Q2FY16. Among the source of domestic financing, BDT 124.2 billion came from nonbank and from banking system (-) BDT 131.9 billion. Deficit financing from foreign sources stood at BDT 46.8 billion in Q2FY17 compared to BDT 70.2 billion in Q2FY16.
- 3.6 The overall fiscal deficit in the first half of FY17 stood at BDT 159.8 billion, or 0.8 percent of GDP, compared to BDT 174.0 billion, or 1.0 percent of GDP in H1FY16. An overview of the sources of deficit financing shows that BDT 90.9 billion was accommodated from domestic sources, while the remaining amount of BDT 68.9 billion came from foreign sources in H1FY17.

# **IV. External Sector Developments**

4.1 The current account balance (CAB) recorded a deficit of USD 432.0 million in Q2FY17 compared to a balance in Q2FY16 with the widened deficit in the services, primary income account. In spite of some improvement in the trade deficit during the quarter, the large deficit in the secondary income was mainly due to a 17.6 percent decline in the inflow of workers' remittances that push the CAB into deficit.

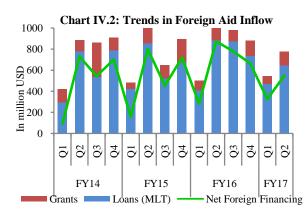

Source: Statistics Department, Bangladesh Bank.

The services account and the primary

income accounts recorded deficits of USD 865.0 million and USD 494.0 million respectively, while the secondary income recorded a surplus of USD 3.1 billion (of which the inflow of workers' remittances was USD 2.9 billion) during the quarter under review.

- 4.2 The combined capital and financial account recorded a surplus of USD 972.0 million in Q2FY17 compared to a surplus of USD 764.0 million in Q2FY16. The financial account recorded a surplus of USD 855.0 million, while surplus in the capital account decreased to USD 117.0 million in Q2FY17 from USD 178.0 million in Q2FY16. At the end of Q2FY17, the overall balance of payments (BOP) recorded a surplus of USD 468.0 million which was just same in Q2FY16. The foreign exchange reserves stood at USD 32.1 billion at the end of December 2016 (Table IV.1).
- 4.3 Total foreign aid disbursement during Q2FY17 declined to USD 778.3 million compared to USD 1090.2 million in Q2FY16. Out of the total aid, USD 647.2 million was disbursed as medium and long-term (MLT) loan in Q2FY17. Grants decreased from USD 204.5 million in Q2FY16 to USD 131.1 million during Q2FY17. In Q2FY17 Bangladesh made an amortization payment of USD 273.4 million, of which USD 226.9 million was paid as principal. As a result, net foreign financing in Q2FY17 was USD 551.4 million lower than USD 875.2 million received in Q2FY16 (Table IV.8).

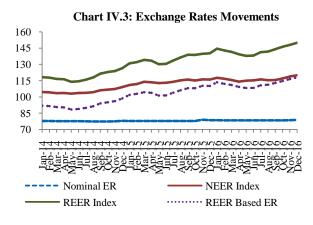

Source: Statistics Department, Bangladesh Bank

4.4 The weighted average nominal exchange rate stood at BDT 78.70 per US dollar in December 2016 from BDT 78.40 per US dollar in September 2016, indicating a marginal depreciation. The REER based

exchange rate increased to BDT 118.06 per USD at the end of December 2016 from BDT 112.95 per USD at the end of September 2016. Bangladesh Bank continued its intervention in the domestic foreign exchange market with a net purchase of foreign currencies amounting to USD 65.0 million during Q2FY17.

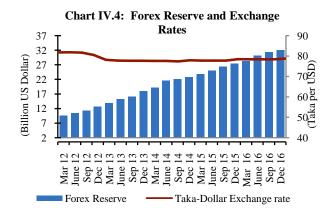

4.5 According to Export Promotion Bureau (EPB) data, exports earnings increased by 4.7 percent to USD 8.7 billion in Q2FY17 from USD 8.3 billion in Q2FY16 (on adjusted fob basis export earnings increased by 5.1 percent to USD 8.5 billion in Q2FY17 from USD 8.1 billion in Q2FY16). Exports of RMG grew by 5.2 percent to USD 7.0 billion during the quarter under review. In Q2FY17 export of woven garments and knitwear to European countries increased by 10.5 percent and 9.9 percent respectively. Whereas export of woven garments to USA decreased by 7.6 percent

Source: Statistics Department, Bangladesh Bank.

in Q2FY17. Among non-traditional markets, export of non-RMG products to USA (+11.9 percent), Turkey (+31.3 percent), China (+38.4 percent) increased while export to UAE (-42.3 percent), Japan (-16.9 percent), Republic of Korea (-46.9 percent) decreased in Q2FY17 (Table IV.2 and IV.5).

- 4.6 Among the major export items, earnings from raw jute (+138 .8 percent), jute goods (+10.1 percent), leather (+11.0 percent), woven garments (3.3 percent) and Knitwear products (+7.3 percent) increased while earnings from export of frozen shrimps and fish (-6.9 percent) and terry towels (-8.0 percent) decreased during Q2FY17 over Q2FY16 (Table IV.2).
- 4.7 According to customs data import payments increased by 0.7 percent to USD 11.5 billion in Q2FY17 compared to USD 11.4 billion in Q2FY16

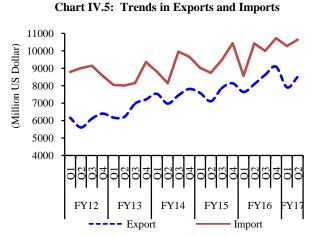

Source: Statistics Department, Bangladesh Bank.

(Table IV.3). Import of food-grains increased from USD 330.9 million in Q2FY16 to USD 347.7 million in Q2FY17. Import of rice in Q2FY17 (USD 8.7 million) decreased by 83.1 percent compared to the corresponding quarter of FY16, while import of wheat (USD 339.0 million) was a little higher. Import of other food items increased from USD 693.0 million during Q2FY16 to USD 896.5 million in Q2FY17. Among the other food items, the import of spices (+36.3 percent), edible oil (+42.7 percent), pulses (+17.9 percent) increased in Q2FY17 over Q2FY16 (Table IV.3).

4.8 Imports of consumer and intermediate goods decreased by 2.4 percent to USD 6.4 billion during Q2FY17. Among the intermediate goods, imports of POL (+25.2 percent), plastics and rubber articles thereof (+6.6 percent), dyeing and tanning materials (+1.3 percent), raw cotton (+4.9 percent) and clinker (+19.9 percent) increased. During the same period imports of textile and articles thereof (-6.2 percent), oil seeds (-67.8 percent), yarn (-9.8 percent),

pharmaceutical products (-15.1 percent), fertilizer (-43.4 percent) decreased. Import of crude petroleum fell by 37.7 percent during Q2FY17 over the same quarter of previous year. Imports of iron, steel and other base metals increased by 20.2 percent while that of capital goods and others decreased by 3.9 percent in Q2FY17 over Q2FY16 (Table IV.3).

4.9 In Q2FY17, opening of import LCs increased by 8.5 percent to USD 12.3 billion, of which LCs for industrial raw materials (-72.3

Source: Statistics Department, Bangladesh Bank.

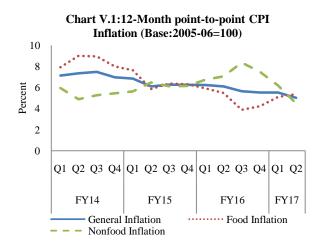

percent), capital machinery (-17.5 percent) and machinery for miscellaneous industries (-31.1 percent) decreased, while opening of LCs for consumer goods (+ 39.2 percent), intermediate goods (+338.6 percent) and petroleum and petroleum products (+134.7 percent) increased (Table IV.9).

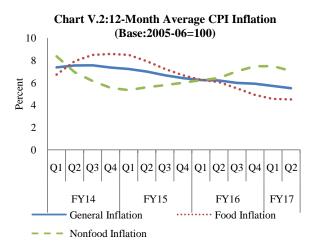

4.10 During Q2FY17, the country's remittance inflow witnessed a sharp fall by 17.8 percent to USD 2.9 billion compared to USD 3.6 billion in Q2FY16. During Q2FY17, remittance decreased in most of the sources except Qatar, Germany and Kuwait. On the other hand, overseas employment for Bangladeshi workers increased in Q2FY17 as a total of 211,456 Bangladeshi people migrated abroad compared with 179,404 people migrated in the corresponding period of FY16. The political instability in gulf region and global oil price slum may be one of the major reasons for the downward trend in the remittance inflow during the quarter under review.

During Q2FY17, remittance from the Gulf region decreased by 16.4 percent to USD 1.7 billion, attributable mainly due to a large decline in remittances from Saudi Arabia (-26.7 percent), UAE (-24.8 percent) and Bahrain (-18.3 percent) compared to Q2FY16. Remittance from the Euro region during Q2FY17 decreased by 16.9 percent and from the Asia Pacific region decreased by 13.1 percent. Remittance from the rest of the world (including the USA) also decreased by 23.1 percent in Q2FY17 over Q2FY16 (Table IV.4).

# V. Price Developments

- Headline CPI inflation (12-month average) eased to 5.5 percent in December 2016 and remained below the target of 5.8 percent for FY17 supported by waning effects of food and nonfood items' prices. Both average food and nonfood inflation followed a downward trend during Q2FY17 though falling of average nonfood inflation was more prominent with respect to average general inflation during the period under review. The food inflation softened marginally to 4.51 percent from 4.56 percent in September 2016 while the non food inflation subdued more to 7.04 percent in December 2016 from 7.48 percent in September 2016 (Chart V.2). Like national, average inflation in rural and urban remained at its declining path.
- 5.2 General CPI inflation (p-t-p) also declined to 5.03 percent at the end of Q2FY17 from 5.53 percent at the end of Q1FY17, driven by favorable domestic production and a fall in prices of global commodity in the international market (Chart V.1). The food inflation was the dominant sources of headline inflation during Q2FY17 as its weighted contribution followed a declining trend during the period under review (chart-V.3). Food inflation nosed to 5.38 percent in December 2016 after rising in October 2016 (5.56) supported by favorable *aman* crop and vegetable production. On the other hand, nonfood inflation edged down to 4.49 percent in December 2016 from 7.05 percent a year ago.

5.3 During Q2FY17, global commodity prices showed a slight up with high energy prices and a moderate rise in agricultural commodity prices though it was stable in the previous quarter (Chart V.7). Energy prices rose during the quarter under review, was still lower than that of in the previous year, led by OPEC's production cut. This upward pressure on oil prices and growing prices of agricultural commodities in global markets may be translated into higher food prices in coming Q3 in the domestic market, which are evident in the high contribution of food inflation in overall inflation in the second quarter of FY17. According to IMF data, rice price marginally increased in the last month of Q3FY17 although it was quite lower than that of in the previous year.

Source: Bangladesh Bureau of Statistics

5.4 As food inflation was still a dominant contributor to CPI inflation during the quarter under review, recent global commodity price movements might be translated into some upward price pressures through import prices. However, in the domestic front, inflation uncertainty might come from the recovery in remittance growth over the near to medium term stemming from oil price stabilization. In addition, uptrend private credit growth with low investment demand may fuel in the inflationary expectation in near future.

5.5 In the South Asian Region, most of the countries faced a downward trend in CPI inflation during Q2FY17 (Chart V.8). Among them, Bangladesh experienced high inflation at 5.03 percent in December 2016. Indian CPI inflation decreased to 3.60 percent in November 2016 mainly due to fall in food items' prices. In Pakistan, CPI inflation slightly went down to 3.70 percent in December 2016 from 3.80

percent in September 2016 with higher contribution of nonfood inflation.CPI inflation in Sri Lanka also muted to 4.2 percent in Q2FY17 compare to 4.7 percent in the previous quarter .

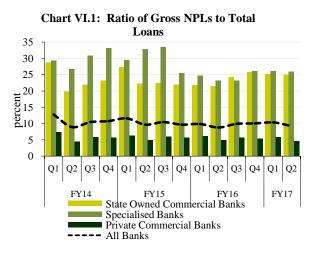

## **VI. Banking Sector Performance**

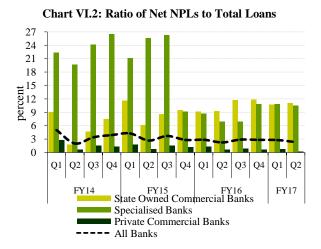

During Q2FY17, the banking sector indicators showed some improvements compared to that of the preceding quarter led by the good performance of Private Commercial Banks (PCBs). The ratio of gross NPL to the total outstanding loans of the banking sector declined from 10.3 percent at the end of September 2016 to 9.2 percent at the end of December 2016. Moreover, the ratio of net NPL to the total outstanding loans of the banking sector reduced to 2.3 percent from 2.8 percent during the same period. While, the ratio of net NPL of the state owned commercial banks rose to 11.1 percent from 10.7 percent during the same period. Capital to Risk Weighted Assets Ratio (CRAR) stood at 10.8 percent in December 2016, a bit increased from the preceding quarter which was 10.3 percent. Despite improvement in NPL and CRAR, provision shortfall position of the banking sector deteriorated in December 2016 and stood at BDT (-) 54.7 billion from BDT (-) 43.8 billion at the end of September 2016.

Among the profitability measures, Return on Asset (ROA) elevated from 0.4 percent at the end of June 2016 to 0.7 percent at the end of December 2016. In addition, Return on Equity (ROE) also climbed to 9.9 percent at the end of December 2016 from 6.7 percent at the end of June 2016.

Monthly interest rate spread for all banks, measured as the difference between the monthly weighted average interest rate on advances and deposits, continued to stay below 5.0 percent during Q2FY17. Monthly weighted average call money rate slightly declined from 3.64 percent in September 2016 to 3.62 percent in December 2016.

6.2 The ratio of gross NPL to the total outstanding loans of the banking sector declined from 10.3 percent at the end of September 2016 to 9.2 percent at the end of December 2016 (Table VI.1 and Chart VI.1). The total classified loan lessened by 5.4 percent to BTD 621.7 billion during this quarter from the level of end September 2016. During Q2FY17 the ratio of gross NPL to total outstanding loans declined to 4.6 percent from 5.9 percent compared to the preceding quarter for PCBs. However, the ratio of gross NPL to total outstanding loans rose for FCBs from 8.9 percent at the end of September 2016 to 9.6 percent at the end of December 2016. The ratio of gross NPL to total outstanding loans for SCBs and SBs stood at 25.1 percent and 26.0 percent during this quarter, same as the preceding quarter.

Source: Banking Regulation and Policy Department, Bangladesh Bank

The ratio of net NPL to the total outstanding loan of the banking sector declined from 2.8 percent in September 2016 to 2.3 percent in December 2016 (Table VI.2, Chart VI.2). The ratio of net NPL to total outstanding loans for PCBs and SBs lessened from 0.8 percent and 10.8 percent respectively in Q1FY17 to 0.1 percent and 10.5 percent respectively in Q2FY17. However, the ratio of net NPL to total outstanding loans for SCBs and FCBs increased to 11.1 percent and 1.9 respectively during Q2FY17from 10.7 percent and 1.3 percent respectively in the previous quarter. SCBs failed to maintain its required amount of provision resulting in an increase of the net NPL ratio of this bank group.

In December 2016, the CRAR was (10.8 percent) slightly higher than the minimum regulatory requirement of 10.0 percent. Total risk-weighted assets, the minimum capital requirement and total eligible capital of the banking sector as a whole grew by 2.9 percent, 3.2 percent, and 7.8 percent respectively in December 2016 over September 2016. CRAR for SCBs, PCBs and, FCBs increased to 5.9 percent, 12.4 percent and 25.4 percent respectively in December 2016 from 5.6 percent, 11.8 percent and 24.1 percent in September 2016. However, CRAR for SBs deteriorated further from (-) 32.9 percent to (-) 33.7 percent during the same period (Chart VI.3).

- In terms of year on year comparisons, both Return on Asset (ROA) and Return on Equity (ROE) declined from 0.8 percent and 10.5 percent respectively at the end of December 2015 to 0.7 percent and 9.9 percent respectively at the end of December 2016 although ROA and ROE were increased in the second half of 2016 (Table VI.4). The ROA for SCBs, SBs and FCBs deteriorated from (-)0.04, (-)1.15 and 2.92 percent respectively in December 2015 to (-)0.16, (-)1.40 and 2.56 respectively in December 2016. However, ROA for PCBs remained unchanged and stood at 1.0 percent. The ROE for SCBs, SBs and FCBs deteriorated from (-) 1.47 percent, (-) 5.79 percent and 14.59 percent respectively in December 2015 to (-) 6.02 percent, (-) 6.94 percent and 13.09 percent respectively in December 2016. The ROE for PCBs has slightly improved from 10.75 percent in December 2015 to 11.09 percent in December 2016.
- At the end of December 2016, the growth rate (year-on- year) of deposits was lower than that of advances (more than two percentage point less). The Advance-Deposit Ratio (ADR) marginally increased from 73.9 percent at the end-September 2016 to 75.5 percent at the end-December 2016 and remained below the maximum regulatory ceiling. The growth rate of deposits slightly declined from 13.5 percent at the end of September 2016 to 13.1 percent at the end of December 2016. On the other hand, the growth of advances rose from 14.5 percent to 15.3 percent during the same period (Table 6.2). The liquidity position in the banking sector as a whole was comfortable at the end of December 2016; leading to a further easing of money market conditions (Table 6.3).

Monthly interest rate spread for all banks, measured as the difference between the monthly weighted average interest rate on advances and deposit, continued to remain below 5.0 percent during October-December 2016. The spread has been decreasing since June 2016 (4.85 percent) until it reached at 4.65 percent in November 2016. In December 2016, the spread was 4.71 percent, slightly increased in last six months (Chart VI.4). Monthly weighted average call money rate has declined from 3.64 percent in September 2016 to 3.62 percent in December 2016.

<sup>\*\*</sup>includes cash in tills, balance with BB in foreign currency, balance with Sonali Bank as an agent of BB, unencumbered approved securities and excess reserve (column 4)

# VII. Capital Market Developments

- 7.1 The performances of the capital market of Bangladesh were improved significantly during Q2FY17. The factors which contributed to move the market momentum positively were: low deposit rates in the banking system, increased corporate earnings, higher investment by foreign participants, policy support by Bangladesh Bank, an increased confidence of retail investors, and political stability in the country.
- 7.2 The prime indicator of the capital market, the DSE broad index crossed 5000 after two years and reached 5036.1 at the end of December 2016

Source: Dhaka Stock Exchange.

which was 7.3 percent higher than that of September 2016 and 8.8 percent higher than that of December 2015. DSE 30 index, another price indicator, reached 1810.9 which was 1.8 percent higher than that of September 2016 and 3.4 percent higher than that of December 2015. Market capitalization of the DSE recorded 5.4 percent growth to BDT 2856.1 billion at the end of December 2016 from BDT 2708.7 at the end of September 2016 and 9.5 percent growth from the level of December 2015 (Chart VII.I and Table VII.I).

- 7.3 The average price earnings ratio of the DSE decreased to 14.28 in December 2016 compared to 15.19 at the end of September 2016 and 15.23 in December 2015. Total turnover value in the DSE increased significantly by 70.7 percent from BDT 248.9 billion in Q1FY17 to BDT 424.9 billion in Q2FY17. Liquidity situation in the capital market improved as measured by Turnover Velocity Ratio (TVR)<sup>1</sup>, which increased appreciably to 59.5 percent in Q2FY17 from 36.7 percent in Q1FY17. During Q2FY17 the value of issued equity and debt increased by 2.4 percent and a new company was listed in the capital market. Thus the number of listed securities increased to 339 at the end of Q2FY17.
- 7.4 The sector-wise DSE data shows that market capitalization decreased in fuel and power, Jute industries, and corporate bonds sectors during Q2FY17(Table VII.2). All the other sectors (banks, financial institutions, mutual funds, food and allied products, pharmaceuticals and chemicals, cement industry, telecommunication, service and real estate, insurance and miscellaneous) improved during Q2FY17. The contribution of the banking sector increased to 17.0 percent at the end of Q2FY17 from 16.9 percent in Q1FY17.
- 7.5 During October- December 2016, investment on share purchase by the foreign and non-resident Bangladeshi investors increased to BDT 15.7 billion from BDT 10.9 billion in the July-September 2016

\_

<sup>&</sup>lt;sup>1</sup> TVR= (Turnover during the Quarter/Quarter-end Market capitalization)\*4.

and BDT 10.5 billion in the October -December 2015. At the same time, total share sales by foreign and non-resident Bangladeshi investors decreased to BDT 8.1 billion from BDT 9.4 billion in the previous quarter. As a result, net investment of foreign and non-resident Bangladeshi during Q2FY17 increased to BDT 7.5 billion as compared to BDT 1.5 billion in Q1FY17. However, foreign exchange turnover still has a limited contribution in total turnover of the DSE. During Q2FY17, total foreign exchange turnover decreased to 5.6 percent of total turnover from 8.2 percent of total turnover in the previous year.

7.6 Cross country data on price earnings ratio of December 2016 show that Bangladesh capital market is the third lowest with the selected South and East Asian countries while dividend yield of Bangladesh capital market is the highest among the South and East Asian countries (Table 7.1). It implies that currently Bangladesh capital market is comparatively more attractive than the neighboring countries based on both price earnings ratio and dividend yields.

Table 7.1: Comparison among regional Capital markets December 2016

| Country    | Price Earnings Ratio | Dividend Yield |
|------------|----------------------|----------------|
| Bangladesh | 14.28                | 3.87           |
| India      | 20.88                | 1.46           |
| Sri Lanka  | 12.37                | 2.75           |
| Thailand   | 18.55                | 3.04           |
| Hong Kong  | 10.53                | -              |
| China      | 16.58                | -              |

# Chronology of Major Policy Announcements: October-December, 2016

| FE Circular Letter No. 27               | Bangladesh Bank (BB) has established the Green Transformation          |
|---|--|
| 02 October 2016                         | Fund (GTF) to accelerate sustainable growth in export oriented         |
|   | textile and leather sectors conducive to transformation of green       |
| Participation Agreement of Green        | economy in the country. To further fortify the financing               |
| Transformation Fund for export          | arrangement under GTF, it has been decided to provision for a          |
| oriented textile & textile products and | Participation Agreement to be signed between Bangladesh Bank           |
| leather manufacturing industries.       | and intended Authorized Dealers (ADs). To enter into the               |
|   | agreement, ADs have to apply in written to concerned Department        |
|   | of BB.   |
| FE Circular No. 30                      | Government of Bangladesh decided to give twenty (20) percent           |
| 24 November 2016                        | cash incentives to the exporters of domestically produced Agar         |
|   | and Atar products to encourage the export trade of the country.        |
| Cash subsidy for Exports of Agar and    | The exporters will have to place their application to get the cash     |
| Atar products                           | incentive before the concerned authorized dealer branches of           |
|   | banks within six months after repatriating the export earnings to      |
|   | the country.   |
| SFD Circular No. 02                     | Bangladesh Bank (BB) has taken initiatives to ensure a stable and      |
| 01 December 2016                        | environment-friendly banking and overall CSR activities to             |
|   | support the Sustainable Development Goal (SDG). To achieve the         |
| Set up Sustainable Finance Unit and     | goal more fruitfully and efficiently BB has instructed the banks       |
| its' responsibility in Banks and        | and financial institutions to set up a separate 'sustainable financial |
| Financial Institutions.                 | unit' (may be in name of department/cell/division) in the head         |
|   | offices of banks and financial institutions. The BB advised the        |
|   | banks and financial institutions to form a 'sustainable finance        |
|   | committee' led by a senior most deputy managing director for           |
|   | monitoring and planning sustainable banking and financing              |
|   | related activities.  |
|   |  |
| BRPD Circular No.08                     | Guidelines on core banking solution features and controls have         |
| 1 December 2016                         | been issued to formulate a uniform set of instructions that should     |
|   | be accommodated as minimum requirement but not limited to in           |
| Guidelines on Core Banking Solution     | any Core Banking Solution (CBS).                                       |
| (CBS) Features and Controls.            |  |

| SFD Circular No.03                   | All Commercial Banks and Financial Institutes have to make sure       |
|--------------------------------------|---|
| 08 December 2016                     | for all type of their loans & advances that potential borrowers       |
|                                      | should compulsorily install and monitor Effluent Treatment Plant      |
| Regarding Effluent Treatment Plant   | (ETP) where applicable. This Instruction will also be applicable      |
| (ETP) treatment plant erecting.      | for all existing financing.   |
| Circular No. DMD-07/2016             | Wage Earner Development Bond, US Dollar Investment Bond               |
| 14 December 2016                     | and US Dollar Premium Bond can be used as collateral while            |
|                                      | availing credit facility. This circular addresses few conditions that |
| Availing loan facility against Wage  | banks should comply while sanctioning loan keeping Wage               |
| Earner Development Bond, US Dollar   | Earner Development Bond, US Dollar Investment Bond and US             |
| Investment Bond and US Dollar        | Dollar Premium Bond as collateral.                                    |
| Premium Bond as collateral.          |   |
| FE Circular Letter No. 31            | Authorized Dealers (ADs) may within the purview of above              |
| 20 December 2016                     | mentioned authorization effect remittance towards cost of agent       |
|                                      | services of legal process under The USA PATRIOT Act of 2001           |
| Release of foreign exchange against  | after satisfying themselves with the genuineness and bonafides of     |
| cost of agent services of            | the requests through agreement/proforma invoice duly accepted         |
| legal process under The USA          | and after deducting all applicable taxes.                             |
| PATRIOT Act of 2001.                 |   |
| Circular Letter No FEPD              | Bangladesh Bank (BB) has reset the security deposit amount of         |
| (LDA)147/2016-32                     | the drawing management with exchange houses abroad under              |
| 27 December 2016                     | Electronic Fund Transfer (EFT) process. The approved banks can        |
|                                      | now deposit US \$10,000 instead of \$25,000 for Non Residence         |
| Policy linked drawing management of  | Declaration (NRD) account or term deposit and Taka 2,00,000           |
| exchange houses abroad with BB       | instead of Taka 5,00,000 for Non Resident Taka (NRT) account.         |
| under Electronic Fund Transfer (EFT) | But the banks can not provide any overdrawn facility in favor of      |
| process.                             | money transfer institutions.  |
|                                      |   |
| FE Circular No.31                    | Authorized Dealers (ADs) should submit Form C with the                |
| 28 December 2016                     | monthly/periodic returns to Bangladesh Bank (BB) from January,        |
|                                      | 2017. Online Inward Remittance Monitoring System of BB should         |
| Regarding Submission of Form C to    | be updated at the time of conducting such transactions. ADs shall     |
| Bangladesh Bank                      | preserve the printed copy of Form C (with related documents) at       |
|                                      | their own custody for 05 (five) years for record and inspection of    |
|                                      | BB.   |
