**28 February 2026**

## *Fortnightly Major Economic Indicators*

**Monetary Policy Department**  
**Bangladesh Bank**

Comments on any aspects of the report are highly welcomed and can be sent to Mr. Md. Nazimul Arif Sarker, Additional Director, Monetary Policy Department, Bangladesh Bank, e-mail: [nazimul.sarker@bb.org.bd](mailto:nazimul.sarker@bb.org.bd); Ms. Nabila Fahria, Joint Director, Monetary Policy Department, Bangladesh Bank, e-mail: [nabila.fahria@bb.org.bd](mailto:nabila.fahria@bb.org.bd); Mr. Rashidul Hoque Timur, Assistant Director, Monetary Policy Department, Bangladesh Bank, e-mail: [rashidul.hoque@bb.org.bd](mailto:rashidul.hoque@bb.org.bd)

## **Fortnightly Major Economic Indicators: 16-28 February 2026**

**Broad money** increased 10.52 percent (y-o-y) and reached BDT 22,81,865.40 crore at the end of February 2026. The rise in net foreign assets (NFA) and net domestic assets (NDA) during this period was the cause of this growth. During July to February of FY26 broad money grew by BDT 1,07,243.70 crore, while it had increased by BDT 31,426.30 crore during the same period in FY25.

**Domestic credit** increased 11.30 percent (y-o-y) and reached BDT 24,13,769.20 crore at the end of February 2026. The rise in lending to the public sector was the primary cause of the growth in domestic credit. During July to February of FY26 domestic credit rose by BDT 1,29,416.40 crore, while it had increased by BDT 53,236.00 crore during the same period in FY25.

**Credit to the public sector** increased 29.61 percent (y-o-y) and reached BDT 6,27,793.20 crore at the end of February 2026. The public sector's credit expansion resulted from a net increase in government borrowing as the government attempted to meet anticipated spending in the face of declining tax revenue, rising debt servicing costs, and increased costs brought on by inflated prices. During July to February of FY26 credit to the public sector grew by BDT 91,127.30 crore and it had increased by BDT 10,081.00 crore during the same period in FY25.

**Credit to the private sector** increased 6.03 percent (y-o-y) and reached BDT 17,85,976.00 crore at the end of February 2026. During July to February of FY26 credit to the private sector increased by BDT 38,289.10 crore, while it had increased by BDT 43,155.00 crore during the same period in FY25.

**Deposit of the banking system** increased 11.28 percent (y-o-y) and reached BDT 19,95,461.30 crore at the end of February 2026. The primary factor contributing to the rise in bank deposits during the period was the increase in term deposits. The deposit of the banking system increased by BDT 1,17,291.50 crore from July to February of FY26, in contrast to the increase of BDT 50,367.20 crore during the same period of FY25.

**Reserve money** increased 13.35 percent (y-o-y) and reached BDT 4,24,618.80 crore as on 28 February 2026. Rise in Bangladesh Bank's Net Foreign Assets (NFA) led to this increase in reserve money. However, during July to February of FY26 reserve money increased by BDT 11,439.80 crore, while it had decreased by BDT 39,044.10 crore during the same period in FY25.

**Policy rate (Repo)** was re-fixed at 10.00 percent on October 27, 2024, and has remained unchanged since. With effect from the same date, October 27, 2024, **Standing Lending Facility (SLF)** rate was re-fixed at 11.50 percent and has remained unchanged as well. **Standing Deposit Facility (SDF)** rate was re-fixed at 7.50 percent on February 16, 2026. The **weighted average call money rate** was 9.90 percent up to 15 February 2026, remaining closely below policy rate.

**Net government borrowing** from the banking system increased by BDT 73,115.88 crore from 01 July to 28 February of FY26, against the increase of BDT 26,225.98 crore from 01 July to 28 February of FY25.

**NBR tax revenue** grossed a collection of BDT 2,54,330.28 crore through a 12.36 percent (y-o-y) growth during July to February of FY26; while it had grown only 3.84 percent during July to February of FY25. This collection was 78.06 percent of the targeted BDT 3,25,802.15 crore set for July to February of FY26. However, tax collection for the month of February 2026 was only BDT 30,561.00 crore, through a growth of 8.16 percent (y-o-y); while this growth was 5.62 percent in February 2025.

**Exports** decreased 1.97 percent (y-o-y) to USD 32.30 billion during July to February of FY26, as RMG (Knitwear & Woven garments) exports decreased 2.6 percent (y-o-y); RMG accounted for 80.79 percent of the total exports during the period under review. In comparison, total exports had increased 10.42 percent (y-o-y) during July- February of FY25.

**Custom-based imports** increased 4.88 percent (y-o-y) to USD 48.73 billion during July to February of FY26, while it had increased 5.33 percent (y-o-y) during the same period of the previous fiscal year. During July to January of FY26, **Opening of import LC** increased 2.41 percent while **settlement of import LC** decreased 1.21 percent. Relaxation of import regulations such as easing the LC cash margin requirements by BB might have contributed to the growth of import during the reported period.

**Inward remittances** increased 21.44 percent (y-o-y) to USD 22.45 billion during July to February of FY26, while it had increased 22.63 percent (y-o-y) during the same period of FY25.

**Current account deficit** narrowed to USD 1 billion during July to February of FY26 from USD 1.47 billion during July to February of FY25. Worker's remittance inflow is the key factor behind the improvement in current account situation.

**Gross foreign reserves** increased to USD 35.11 billion 28 February 2026 from USD 26.18 billion on February 2025. Bangladesh Bank has maintained a consistent level of foreign exchange reserves over USD 30.00 billion through purchases of USD. The consistent higher flow of inward remittances has also contributed to the increase in foreign exchange reserves.

**Exchange rate** (inter-bank) of Bangladesh Taka against USD depreciated 0.25 percent to BDT/USD 122.30 on an average during 01-28 February of FY26 compared to that of 01-28 February of FY25. Exchange rate (inter-bank) of Bangladesh Taka against USD is at a slow depreciating path.

**Headline inflation point-to-point** sidled up to 9.13 percent (y-o-y) in February 2026 from 8.58 percent (y-o-y) in January 2026; inflation in February 2026 was still lower than 9.32 percent (y-o-y) of February 2025. Meanwhile, the **twelve-month average inflation** declined to 8.65 percent in February 2026 from 10.31 percent in February 2025, reflecting the impact of the continued tight monetary policy stance since July 2023. The tight monetary policy is expected to further ease inflationary pressures in the coming months.

Detailed fortnightly data available up to 28 February 2026 is annexed herewith.

## Detailed Information of Major Economic Indicators: 16-28, Feb-26

### I. Money and Credit

(Taka in crore)

Particulars	Jun-24	Feb-25 <sup>R</sup>	Jun-25	Feb-26 <sup>P</sup>	Jul-Feb, FY25	Jul-Feb, FY26 <sup>P</sup>
1	2	3	4	5	6=(3-2)	7=(5-4)
<b>A. Broad money (a+b)</b>	2033234.00 (+7.74)	2064660.30 (+7.55)	2174621.70 (+6.95)	2281865.40 (+10.52)	31426.30	107243.70
