15 April 2026

Fortnightly Major Economic Indicators

Monetary Policy Department
Bangladesh Bank

Comments on any aspects of the report are highly welcomed and can be sent to Ms. Sadia Sultana, Additional Director, Monetary Policy Department, Bangladesh Bank, e-mail: sadia.sultana@bb.org.bd; Ms. Nabila Fahria, Joint Director, Monetary Policy Department, Bangladesh Bank, e-mail: nabila.fahria@bb.org.bd; Mr. Mohammad Saiful Islam, Assistant Director, Monetary Policy Department, Bangladesh Bank, e-mail: mislam.saiful@bb.org.bd.

Fortnightly Major Economic Indicators: 01-15 April 2026

Broad money increased 10.43 percent (y-o-y) and reached BDT 23,35,597.90 crore at the end of March 2026. The rise in both net foreign assets (NFA) and net domestic assets (NDA) during this period was the cause of this growth. During July to March of FY26 broad money grew by BDT 1,60,976.20 crore, while it had increased by BDT 81,858.00 crore during the same period in FY25.

Domestic credit increased 10.80 percent (y-o-y) and reached BDT 24,63,640.90 crore at the end of March 2026. The rise in lending to the public sector was the primary cause of the growth in domestic credit. During July to March of FY26 domestic credit rose by BDT 1,79,288.10 crore, while it had increased by BDT 1,08,009.30 crore during the same period in FY25.

Credit to the public sector increased 31.51 percent (y-o-y) and reached BDT 6,63,097.40 crore at the end of March 2026. The public sector's credit expansion resulted from a net increase in government borrowing as the government attempted to meet anticipated spending in the face of declining tax revenue, rising debt servicing costs, and increased costs brought on by inflated prices. During July to March of FY26 credit to the public sector grew by BDT 1,26,431.50 crore and it had increased by BDT 29,911.10 crore during the same period in FY25.

Credit to the private sector increased 4.72 percent (y-o-y) and reached BDT 18,00,543.50 crore at the end of March 2026. During July to March of FY26 credit to the private sector increased by BDT 52,856.60 crore, while it had increased by BDT 78,098.20 crore during the same period in FY25.

Deposit of the banking system increased 11.76 percent (y-o-y) and reached BDT 20,32,579.20 crore at the end of March 2026. The primary factor contributing to the rise in bank deposits during the period was the increase in time deposits. The deposit of the banking system increased by BDT 1,54,409.40 crore from July to March of FY26, in contrast to the increase of BDT 75,862.90 crore during the same period of FY25.

Reserve money increased 20.14 percent (y-o-y) and reached BDT 4,44,417.10 crore as on 15 April 2026. Rise in Bangladesh Bank's Net Foreign Assets (NFA) led to this increase in reserve money. During July to 15 April of FY26 reserve money increased by BDT 31,238.10 crore, while it had decreased by BDT 43,725.90 crore during the same period in FY25.

Policy rate (Repo) was re-fixed at 10.00 percent on October 27, 2024, and has remained unchanged since. With effect from the same date, October 27, 2024, **Standing Lending Facility (SLF)** rate was re-fixed at 11.50 percent and has remained unchanged as well. **Standing Deposit Facility (SDF)** rate was re-fixed at 7.50 percent with effect from February 16, 2026. The **weighted average call money rate** was 9.92 percent up to 15 April 2026, remaining closely above policy rate.

Net government borrowing from the banking system increased by BDT 93,142.27 crore from 01 July to 15 April of FY26, against the increase of BDT 42,558.49 crore from 01 July to 15 April of FY25.

NBR tax revenue grossed a collection of BDT 2,87,862.59 crore through a 11.15 percent (y-o-y) growth during July to March of FY26; while it had grown only 3.77 percent during July to March of FY25. This collection was 74.60 percent of the targeted BDT 3,85,852.59 crore set for July to March of FY26. However, tax collection for the month of March 2026 was only BDT 33,522.00 crore, through a growth of 2.67 percent (y-o-y); while this growth was 3.25 percent in March 2025.

Exports decreased 3.78 percent (y-o-y) to USD 35.78 billion during July to March of FY26, as RMG (Knitwear & Woven garments) exports decreased 4.50 percent (y-o-y); RMG accounted for 80.69 percent of the total exports during the period under review. In comparison, total exports had increased 10.52 percent (y-o-y) during July to March of FY25.

Custom-based imports increased 4.20 percent (y-o-y) to USD 54.55 billion during July to March of FY26, while it had increased 6.38 percent (y-o-y) during the same period of the previous fiscal year. During July to March of FY26, **opening of import LC** increased 0.35 percent while **settlement of import LC** decreased 4.14 percent.

Inward remittances increased 20.37 percent (y-o-y) to USD 27.99 billion during July to 15 April of FY26, while it had increased 21.47 percent (y-o-y) during the same period of FY25.

Current account deficit narrowed to USD 0.40 billion during July to March of FY26 from USD 0.88 billion during July to March of FY25. Worker's remittance inflow is the key factor behind the improvement in current account situation.

Gross foreign reserves increased to USD 34.87 billion on 15 April 2026 from USD 26.52 billion on 15 April 2025. Bangladesh Bank has maintained a consistent level of foreign exchange reserves over USD 30.00 billion through purchases of USD. The consistent high flow of inward remittances has also contributed to the increase in foreign exchange reserves.

Exchange rate (inter-bank) of Bangladesh Taka against USD depreciated 0.61 percent to BDT/USD 122.75 on an average during 01-15 April of FY26 compared to that of 01-15 April of FY25. Exchange rate (inter-bank) of Bangladesh Taka against USD is at a slow depreciating path.

Headline inflation point-to-point decreased to 8.71 percent (y-o-y) in March 2026 from 9.13 percent (y-o-y) in February 2026; inflation in March 2026 was still lower than 9.35 percent (y-o-y) of March 2025. Meanwhile, the **twelve-month average inflation** declined to 8.60 percent in March 2026 from 10.26 percent in March 2025, reflecting the impact of the continued tight monetary policy stance since July 2023. The tight monetary policy is expected to further ease inflationary pressures in the coming months.

Detailed fortnightly data available up to 15 April 2026 is annexed herewith.

Detailed Information of Major Economic Indicators: 01-15, Apr-26
