Fortnightly Major Economic Indicators: 01-15 June 2025

Broad money increased by 4.58 percent during July-May FY25 and stood at BDT 21,26,350.60 crore at the end of May 2025 compared to 4.48 percent increase during July-May FY24. This increase mainly stemmed from the increase in net domestic assets (NDA) during the period.

Domestic credit increased by 6.83 percent during July-May FY25 and stood at BDT 22,60,015.10 crore at the end of May 2025 compared to 8.75 percent increase during July-May FY24. The increase in domestic credit has been driven by the increase in both credit to the public sector and credit to the private sector. Credit to the public sector increased by 9.90 percent during July-May FY25 and stood at BDT 5,21,245.30 crore at the end of May 2025 compared to 9.33 percent increase during July-May FY24. The positive credit growth in the public sector emerged from both net credit to govt. sector and credit to other public sector.

Credit to the private sector increased by 5.94 percent during July-May FY25 and stood at BDT 17,38,769.80 crore at the end of May 2025 compared to 8.58 percent increase during July-May FY24.

Bank deposits increased by 5.15 percent during July-May FY25 and stood at BDT 18,32,572.00 crore at the end of May 2025 compared to 6.64 percent increase during July-May FY24. The increase in bank deposits emerged from the increase in time deposits during the period.

Reserve money increased by 2.75 percent during 01 July-15 June FY25 and stood at BDT 4,25,006.56 crore as on 15 June 2025 compared to the end of June 2024. Reserve money increased due to increase in Net Foreign Assets (NFA) of Bangladesh Bank under review.

Government borrowing from the banking system increased by BDT 99,590.55 crore during 01 July-15 June FY25 against the increase of BDT 82,893.11 crore during 01 July-15 June FY24^{©P}.

NBR tax revenue collection increased by 3.96 percent and stood at BDT 2,89,268.10 crore during July-April FY25 compared to BDT 2,78,242.69 crore during July-April FY24. The target for NBR tax revenue collection was set at BDT 4,80,000.00 crore in the budget for FY25. NBR tax revenue collection during July-April FY25 was 60.26 percent of the target set for FY25.

Exports^μ increased by 8.60 percent to USD 48.30 billion in FY25 compared to 4.34 percent decrease during FY24. Exports increased mainly due to increase in manufactured products exports during the period.

Custom-based imports increased by 5.31 percent to USD 63.96 billion during July-May FY25 compared to 13.19 percent decrease during the same period of the previous fiscal year. Besides, opening of import LC increased by 0.18 percent as well as settlement of import LC increased by 4.18 percent in FY25. Import monitoring relaxation by BB might have contributed to the positive growth of import during the reported period.

Inward Remittances increased by 28.69 percent to USD 28.99 billion during 01 July-15 June FY25 compared to 9.53 percent increase during the same period of the previous fiscal year. The consistent inflow of remittances can be linked to the interim government's initiatives aimed at persuading remitters to use formal banking channels instead of informal channels like hundi.

Current account balance improved and recorded a deficit of USD 0.43 billion during July-May FY25 against the deficit of USD 6.12 billion during July-May FY24. The deficit in the current account balance emerged from the deficit in trade balance, services and primary income.

Foreign exchange reserves increased and stood at USD 26.15 billion as on 15 June 2025 from USD 24.64 billion as on 15 June 2024. After a long period the foreign exchange reserves has just started increasing. The consistent flow of higher remittances during a couple of months and increase of exports might have contributed to the increase in foreign exchange reserves.

Headline Inflation (point-to-point) and **headline inflation (twelve-month average)** decreased to 8.48 percent and 10.03 percent respectively in June 2025 compared to the previous month. Decrease in headline inflation can be attributed to a reduction in food and non-food inflation. The effects of contractionary policies are expected to further influence inflationary pressures in near future.
