## Concepts and Definitions

### **Foreign Direct Investment (FDI):**

Foreign Direct Investment is the category of international investment that reflects the objective of a resident entity in one economy obtaining a lasting interest in an enterprise resident in another economy (The resident entity is the direct investor and the enterprise is the direct investment enterprise). The lasting interest implies the existence of a long-term relationship between the direct investor and the enterprise and a significant degree of influence by the investor on the management of the enterprise. Direct investment comprises not only the initial transaction establishing the relationship between the investor and the enterprise but also all subsequent transactions between them and among affiliated enterprises, both incorporated and unincorporated. A direct investment enterprise is an incorporated or unincorporated enterprise in which a direct investor owns 10 percent or more of the ordinary shares or voting power for an incorporated enterprise or its equivalent for an unincorporated enterprise (IMF, Balance of Payment Manual, 5<sup>th</sup> addition, 1993, page-86). The components of FDI are : a) Equity capital b) Reinvested earnings and c) Intra-company loans.

A **foreign direct investor** is an individual, an incorporated or unincorporated public or private enterprise, a group of related individuals, or a group of related incorporated and/or unincorporated enterprise which has a direct investment enterprise - that is, a subsidiary, associate or branch - operating in a country other than the country or countries of residence of the foreign direct investor or investors.

A **direct investment enterprise** is defined as an incorporated or unincorporated enterprise in which a foreign investor owns 10 per cent or more of the ordinary shares or voting power of an incorporated enterprise or its equivalent for an unincorporated enterprise. A direct investment enterprise may be an incorporated enterprise - a subsidiary or associate company - or an unincorporated enterprise (branch). Direct investors may have direct investment enterprise which has subsidiaries, associates and branches in one country or in several countries.

A **subsidiary enterprise** is a direct investment enterprise over which the direct investor is able to exercise control. In a subsidiary enterprise, a direct investor owns more than 50 percent of the shareholder's voting power. An **associate enterprise** is a direct investment enterprise over which the direct investor is able to exercise a significant degree of influence but not control. In an associate enterprise a direct investor owns at least 10% but not more than 50 percent of the shareholder's voting power and **branches** are wholly or jointly owned unincorporated enterprise either directly or indirectly owned by the direct investor.

**Residents and Non-residents:**

**Residents** include all individuals, households, enterprises or other organizations operating in Bangladesh, regardless of whether they are citizens of the country or not, and/or are owned by Bangladeshi citizens or foreigners. **Non-residents** are individuals, households, enterprises or other organizations ordinarily domiciled in a country other than Bangladesh. Non-resident branches and subsidiaries of Bangladeshi banks and enterprises operating in another country are examples of non-residents, as are persons who do not normally live in Bangladesh.

Interest on debt should be reported on an accrual basis. In the case of instruments for which interest payments are made at maturity, interest accrued during the reporting period should be reported. For bonds and other deep-discounted instrument, the difference between the discounted issue price and the value at maturity should be treated as interest and reported as it accrues during the period.

**External Debt:**

## Survey Report (July-December, 2009)

### 1. Survey Methodology:

Bangladesh Bank, as the central bank of the country, monitors and compiles FDI flows data needed for drawing up balance of payments and international investment position of Bangladesh. The Statistics Department of Bangladesh Bank has been conducting an enterprise survey since 1995 to collect detailed information on foreign direct investment in Bangladesh. This survey is being conducted twice a year, covering the period January-June and July-December. This survey covers 100% foreign owned companies and joint-venture companies registered with Bangladesh Export Processing Zones Authority (BEPZA) and the Board of Investment (BOI) in addition to Banks and Non-bank financial institutions. The registered projects which did not start operations till the end of the survey period are excluded from the survey. A prescribed survey questionnaire is used to collect FDI data from EPZ and Non-EPZ areas. The enterprises are to submit the survey form duly completed/filled in for the period January-June and July-December by 30<sup>th</sup> September and 31<sup>st</sup> March respectively each year. To facilitate this survey, Statistics Department has started to collect FDI data from the enterprises having FDI through their designated Banks as per Bangladesh Bank's FE Circular No-21 dated November 03, 2009 from the current survey period i.e. July-December, 2009. The survey covers FDI inflows, outflows and outstanding stocks of investment by sectors, countries and enterprises. It also covers stock position of Private Sector External Debt (PSED).

### 2. Reporting Status of FDI Enterprises

Out of the total 740 enterprises, 510 (68.92%) enterprises submitted FDI returns, of which 270 (100%) from EPZs and 240 (51.06%) from Non-EPZ areas. FDI data in connection with the rest of 230 (31.08%) enterprises were not included in the survey report because of non-response.
