## Executive Summary

Agriculture sector plays a significant role in the economy of Bangladesh from the perspective of contribution to Gross Domestic Production (GDP), food security, poverty alleviation and employment creation. Though contribution of agricultural sector declines in GDP with the rising share of industrial sector over the years, it still accounts for 13.35 percent share of GDP in FY21. It plays immense role in maintaining food security for 166.50 million people, keeping food prices stable and generating employment for 40.6 percent of total labor force. Obviously, it is imperative to adequately support agriculture and rural sector to attain two vital Sustainable Development Goals (SDGs) namely SDG number one (No Poverty) and SDG number two (Zero Hunger). As agriculture sector still remains as one of the top priority sectors in the economy, Bangladesh Bank (BB) has continued its active support to boost up agricultural sector by ensuring adequate supply of credit with the involvement of public (commercial and specialized) and private banks. Given this, BB formulates and implements Annual Agricultural and Rural Credit Policy and Program in order to ensure adequate flow of funds in rural areas to support agricultural and SME sector.

*The annual agricultural credit disbursement target was fixed at Tk. 28391.00 crores for FY22 which was 7.98 percent higher than Tk. 26292.00 crores targeted in FY21. During July-September 2021, the achievement was 18.35 percent of the total disbursement target for FY22.*

Bangladesh Bank provides policy directions to expedite credit flow to all sub-sectors in agriculture and non-farm activities in order to promote inclusive economic growth. Agriculture sector has experienced a steady rise in crop production over the years as high attention has been given to the sector. Non-crop sectors like fisheries and livestock & poultry farm are also gaining momentum. The role of the agriculture is immense to encounter environmental calamity and the negative impact of climatic changes. With a view to improving the socio-economic condition of the country along with an underscored role of the agriculture and rural sector, agricultural and rural credit policy and program are being implemented through all scheduled banks. Agricultural production must be boosted up by raising productivity through channeling more credit as well as encouragement to use latest technology in both crop and non-crop sectors which is also necessary to enhance sustainable growth of the sector.
