Government Domestic Borrowing, February 2024

Government borrows to finance the budget mainly from two domestic sources: banking system and non-banking domestic sources. From banking system, government borrows mainly through ways and means, advances, overdraft, and issuance of treasury bills (T-bills) and bonds (T-bonds). However, balances of government deposits and other funds are net out from the banking system borrowing. On the other hand, government borrowing from non-banking domestic sources includes savings instruments introduced by the Directorate of National Savings (NSD) and government T-bills and T-bonds held by non-bank financial institutions, insurance companies, individual investors, etc.

5. Government Islamic Securities

i) Bangladesh Government Islamic Investment Bond (BGIIB)²

To smooth Islamic Shariah-based liquidity management, Bangladesh Government Islamic Investment Bond (BGIIB) was introduced in 2004. During July-February of FY24,

² BGIIB is a pool of funds formed by the Islamic banks and individuals where government provides guarantee against this fund.

investments to BGIIB fund by Islamic banks³ increased to Tk. 2736.8 crore, and amount borrowed from that fund also raised to Tk. 3310.0 crore. Thus, Islamic banks' net balances of BGIIB fund reduced by Tk. 573.2 crore during the period of July-February, FY24.

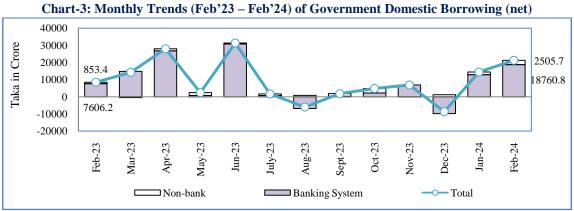

ii) Bangladesh Government Investment Sukuk (BGIS) Bond

Enhancing Shariah-based development financing, Bangladesh Government Investment *Sukuk* (BGIS) Bond was introduced in December 2020. So far, government issued three *Sukuk* (BGIS) bonds under *Ijarah* and *Istisna'a* mode. The outstanding amount of *Sukuk* (BGIS) remained unchanged at Tk. 18,000.0 crore as of end February, 2024.

From banking system, government borrowed and repaid Tk. 21964.8 crore and Tk. 3204.0 crore respectively in February 2024, as a result borrowing (net) stood at Tk. 18760.8 crore. Whereas, government borrowed and repaid Tk. 14530.7 crore and Tk. 6924.5 crore respectively from the same source in February 2023, consequently, borrowing (net) was Tk. 7606.2 crore (Chart-3).

Sources: Debt Management Department and Statistics Department, Bangladesh Bank; Directorate of National Savings.

7. Concluding Remarks

Government domestic borrowing from the banking system was in slow pace during July-February of FY24 compared to a year ago, caused by higher repayments of previous debt. On the contrary, non-bank borrowing (net) during the period under report rose compared to same period of the preceding year, but was still lower than the target due mainly to the reduction in net sales of National Savings Certificates (NSCs).

³ Including Islamic branches and windows of conventional banks.
