## Government Domestic Borrowing during July-April, 2021

Government borrows for financing budget mainly from two domestic sources—banking system and other than banks. Government borrowing from banking system consists of borrowing from central bank and scheduled banks. Government borrows from the banking system mainly through advances, overdraft and issuance of treasury bills and bonds. However, the balances of government deposits and other funds net out government borrowing from the banking system. On the other hand, government borrowing from non-bank sources includes savings instruments introduced by Department of National Savings (NSD) and govt. t-bills & bonds held by non-bank financial institutions, insurance companies, individuals, etc.

### 1. Target of Government Domestic Borrowing for FY21

In the FY21 government revised budget: the target of total domestic borrowing has been revised to Tk. 1,15,052.0 crore, of which Tk. 79,749.0 crore from banking system and Tk. 35,303.0 crore from other than banks. During July-April 2021, the total domestic borrowing (net) of government stood at Tk. 32,508.2 crore which was 28.3 percent of the revised budget target of FY21 (Chart-1).
