Government Domestic Borrowing during July-August of FY22

Government borrows to finance the budget mainly from two domestic sources: banking system and other non-banking domestic source. Government borrowing from the banking system consists of borrowing from the central bank and scheduled banks. From banking system, government borrows mainly through advances, overdraft, and issuance of treasury bills and bonds. However, balances of government deposits and other funds are net out from the banking system borrowing. On the other hand, government borrowing from non-bank domestic source includes savings instruments introduced by the Department of National Savings (NSD) and government t-bills and bonds held by non-bank financial institutions, insurance companies, individual investors, etc.

1. Government Domestic Borrowing Target for FY22

As per national budget document of the Government, the target of total domestic borrowing has been set at Tk. 1,13,453.0 crore, of which Tk. 76,452.0 crore has been estimated to borrow from banking system and Tk. 37,001.0 crore from the other non-banking domestic sources. Accordingly, during July-August of FY22, government has borrowed (net) Tk. 7171.3 crore from domestic sources which is 6.3 percent of the target (Chart-1).

Hence, government borrowing (net) from banking system stood at Tk. 1574.1 crore during the period under report of FY22, and it was 2.1 percent of the target set in the national budget.

^{**=}Other domestic non-bank sources include national savings schemes and T-bills & bonds held by other than banks.

^{*=}Actual government domestic borrowing (net) is calculated up to August, 2021.

3. Borrowing from Other Domestic Non-banking sources

5. Government Islamic Securities

i) Bangladesh Government Islamic Investment Bond (BGIIB)²

Due to interest bearing nature, Islamic banks for a long time were unable to invest their surplus liquidity in the country's existing instruments of the money market. In order for absorbing surplus liquidity from the Islamic banking system, and for creating Islamic Shariah-based monetary policy instrument, government introduced Bangladesh Government Islamic Investment Bond (BGIIB) in 2004 with the minimum tenor of 3 months.

During July-August of FY22, investments to BGIIB fund by Islamic banks decreased by Tk. 856.5 crore for encashment of previous balance while borrowing from that fund also decreased by Tk. 300.0 crore. Therefore, Islamic banks' balances of BGIIB fund decreased by Tk. 556.5 crore during July-August of FY22.

ii) Bangladesh Government Investment Sukuk (BGIS)

Bangladesh Government Investment *Sukuk* (BGIS) was introduced for the first time on October 08, 2020 to raise fund for the project titled 'Safe Water Supply to the Whole Country' with a tenor of 5 years and two tranches issuance. The *Sukuk* was issued under *Ijarah* mode.

The first tranche of the *Sukuk* was issued on December 29, 2020 amounting to Tk. 4000 crore and the second tranche was issued on June 10, 2021 amounting to Tk. 4000 crore. No new auction of BGIS was held during July-August of FY22.

6. Monthly Trends of Domestic Borrowing (August, 2021)

In August 2021, government repaid Tk. 10129.3 crore outstanding debt to Bangladesh Bank and Tk. 29.6 crore to other non-banks against their t-bills and bonds holdings. On the other hand, government borrowed Tk. 1128.4 crore from scheduled banks and Tk. 3628.6 crore from the national savings schemes (NSD)- (Chart-3).

7. Concluding Remark

Government domestic borrowings both from the banking and non-banking sources during July-August, 2021 in FY22 remained well below the target set in the national budget which is considered to be favorable for maintaining overall price stability objective of the monetary policy. This was mainly due to relatively better revenue generation as well as higher flow of funds from foreign sources.
