Government Borrowing from Domestic Sources during July-March of FY15

Government borrows from both domestic and external sources to bridge its fiscal deficits. Government domestic borrowing sources are banks (Bangladesh Bank and Scheduled Banks) and other than banks. Government borrows from banking system mainly through Treasury Bills and Bonds and from non-banking sources through National Saving Directorate (NSD) in addition to Treasury Bills and Bonds. It is observed that the government borrowed Tk.12060.18 crore (net) through Bonds. However, Tk. 4490.3 crore has been repaid through Treasury Bills during July-March of FY15. In addition to that, government borrowed Tk.21184.1 crore through NSD instruments during the period. Net government domestic borrowing stood at Tk.12913.91 crore during July-March of FY15 after the adjustments with Treasury Bills and Bonds, NSD, Ways and Means Advances (WMA), advances to Food and other Ministries, Overdraft current and block accounts, accrued interest, and advances and deposits of autonomous and semi-autonomous bodies as well as the deduction of cash balance in the form of government deposits with Bangladesh Bank and scheduled banks. During the period, government deposits increased by Tk.11340.1 crore (net) where deposits with Bangladesh Bank have been increased by Tk.5872.9 crore and with scheduled banks increased by Tk.5467.2 crore. Instrument-wise net government domestic borrowing during July-March of FY15 is depicted in chart-1.

After the adjustments with repayments, deposits and advances of autonomous and semi-autonomous bodies, the government repayment was much higher than borrowing from banking system. In contrast government

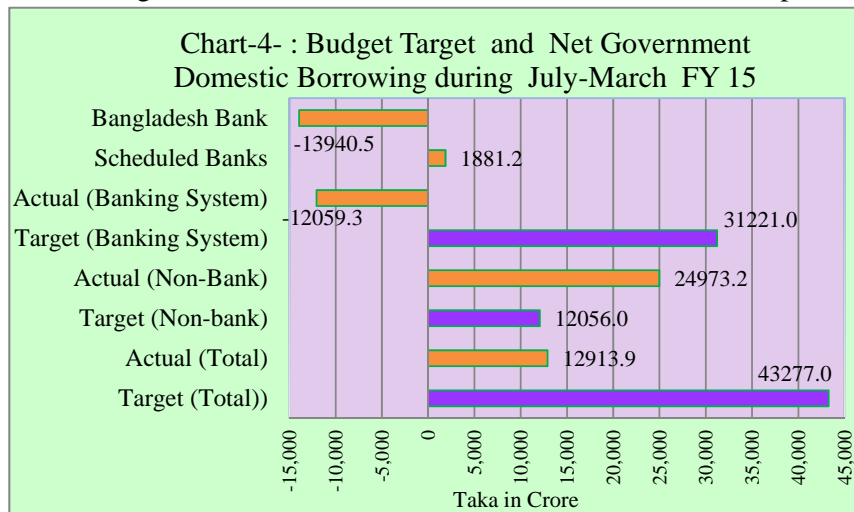

borrowed Tk. 24973.2 crore from other than banking sources (including NSD, Treasury Bills and Treasury Bonds) during July-March of FY15; of which Tk. 21184.1 crore net borrowed through NSD. The movements in net government borrowing from different domestic sources during July-March of FY15 are demonstrated in chart-2.

Monthly movement of government's net domestic borrowing is represented in chart-3. Government's holding of cash balance or repayment account was more in the month of March 2015 than the borrowings from scheduled banks and non-bank sources through T-Bills and Bonds except National Savings Schemes compare to the

previous month. As a result, net Government borrowing in March 2015 was much lower than the previous month.

In the budget of FY15, Tk.43277.0 crore has been fixed for borrowing from domestic sources by the government of which Tk.31221.0 crore and Tk.12056.0 crore are targeted to borrow from banking and non-banking sources respectively. During the period under review the government has borrowed Tk.1881.2 crore from the scheduled banks. However, the total repayment and holding of cash balances with Bangladesh Bank stood at Tk.13940.5 crore. Due to repaid or holding cash balance by the government Tk. 12059.3 crore more than borrowings from the banking system during July-March of FY15. The government borrowed (net) Tk. 7569.86 crore through Treasury Bills and Treasury Bonds which covered 24.25% of borrowing target from domestic sources. Moreover, government

borrowed Tk.24973.2 crore from other than banks (including NSD, Treasury Bills and Bonds), which exceeded of total budget target from non-banking sources. Government borrowed Tk. 3789.1 crore through Treasury Bills and Bonds from other than banking sources. During the period under report, NSD instruments exceeded the total target of non-bank borrowing. The total target of non-bank borrowing through NSD was Tk.9056 crore. The total net government domestic borrowing (banking and non-banking sources) stood at Tk. 12913.9 crore after the adjustment with government deposits and other items during July-March of FY15. A comparative picture of government budget target and actual domestic borrowing during July-March of FY15 is produced in chart-4.
