# Chapter 1: Introduction

## 1.1 Introduction

Remittances constitute one of the most significant and stable sources of foreign exchange reserves for developing economies and play a pivotal role in sustaining macroeconomic stability, growth, and poverty reduction. They represent household income earned in foreign economies, primarily arising from the temporary or permanent migration of workers. Remittance inflows encompass both cash and non-cash transfers transmitted through formal channels—such as banking systems and electronic money transfers—as well as informal channels, including funds or goods physically carried across borders.

When migrant workers remit a portion of their earnings to their families in their home country to support household consumption, education, or investment, these transfers are referred to as workers' remittances or migrant remittances. Over the past decade, remittances have expanded substantially, becoming one of the largest and most reliable sources of foreign income for many developing countries, including Bangladesh. Their growing volume and resilience continue to play a crucial role in strengthening the balance of payments, enhancing household welfare, and fostering inclusive economic development.

Remittances play an increasingly vital role in the economies of small and developing countries including disaster relief, often exceeding official development assistance (ODA). They help raise the standard of living for people in low-income nations and help combat with global poverty. In fact, since the late 1990s, remittances have exceeded development aid and in some cases made up a significant portion of a country's gross domestic product (GDP).

Workers' remittance plays a pivotal role in the economy of Bangladesh, serving as one of the largest sources of foreign exchange. The Bureau of Manpower, Employment, and Training (BMET) has reported that from 1976 to October 2025, 17.85 million people obtained BMET licenses for overseas work. Inward remittance from the Bangladesh expatriates is very significant for the nation as well as for the Bank. Expatriate remittances are one of the largest sources of foreign currency. Manpower export plays an important role for poverty alleviation and helps reduction of unemployment, the core problem of densely populated country like Bangladesh.

In recent years, Workers' remittance inflows have been crucial for maintaining economic stability, particularly in the face of global economic uncertainties and domestic challenges. In the current political and economic landscape, marked by inflationary pressures, exchange rate fluctuations, and rising import costs, remittances have provided much-needed relief by bolstering foreign currency reserves and supporting millions of households across the country. As a stabilizing factor, the steady flow of remittances has been contributing to poverty reduction, improving living standards and regional development. In the context of the ongoing post-pandemic economic recovery, coupled with political transitions, remittances are even more decisive in sustaining economic growth, ensuring liquidity in the banking sector, and reducing reliance on external borrowing.

According to World Bank estimates, global workers' remittance flows reached US $905 billion in 2024. Of this total, approximately US $685 billion was directed to low- and middle-income countries (LMICs), underscoring the crucial role of remittances in supporting household consumption, investment, and external balances in developing economies. With an estimated inflow of US $129 billion in 2024, India remained the world's largest recipient of remittances, followed by countries such as Mexico, China, the Philippines, and Egypt (Source: World Bank, 2024).

In this global context, Bangladesh recorded an impressive US $30.3 billion in inward remittances during FY 2024-25, consolidating its position among the top ten remittance-receiving countries worldwide. The strong inflows reflect the resilience of Bangladesh's expatriate workforce and the effectiveness of policy incentives aimed at promoting formal transfer channels.

### 1.2 Structure of the Publication

This publication presents an in-depth analysis of workers' remittance inflows to Bangladesh, focusing on several key dimensions. The Monthly Trend of Workers' Remittance Inflows section examines short-term fluctuations in remittance receipts over recent months, while the Yearly Trend Analysis provides a broader perspective on long-term growth patterns.

A detailed country-wise breakdown of remittances from the top 15 source countries offers valuable insight into the major corridors contributing to Bangladesh's remittance inflows. Furthermore, the region-wise, division-wise, and district-wise analyses illustrate the geographic distribution of remittance earnings across the country, highlighting areas where these funds exert the most significant socioeconomic impact.

In addition, scheduled bank-wise, district-wise and country-wise time series data have been incorporated as annexure to enhance the analytical depth of this publication. Together, these components provide a comprehensive overview of remittance trends, facilitating informed policy analysis and decision-making.

### 1.3 Data Source

Considering the importance of remittance in the economy, Statistics Department, Bangladesh Bank has been collecting daily workers' remittances data along with home district of Non-Resident Bangladeshis' working abroad (remitter) from June, 2016 to till date. Previously, the Foreign Exchange Policy Department collected the data. The remittance data presented in this publication is meticulously collected on daily basis from all scheduled banks operating in Bangladesh. These banks compile data through several channels to ensure comprehensive coverage of workers' remittance inflows. The head offices of ADs submit i.e. upload daily transaction of workers' remittance on the basis of disbursement to beneficiary accounts in a consolidated form covering figures from all AD branches/departments in currency-wise and district-wise through RIT named T_ME_D_REMITTANCE (T→ Template, ME→ Monetary and Economic, D→ Daily) maintained by Statistics Department, Bangladesh Bank, Head

Office, Dhaka on the following day before 11 A.M. The AD must satisfy itself about full coverage of all NRB (Wage earners) remittance data in this template and in summary statement FCS-7 with specific schedules FCR-1, 2, 3, 4.

The primary sources of data collection include:

- Inward remittance deposits through banking channels into Foreign Currency (FC) accounts and FDD/TTs purchased from Bangladeshi nationals abroad for family support are reported in FCR-1.
- Inward remittances received through Taka accounts of non-resident bank branches, correspondents, exchange houses, and subsidiaries abroad are reported in FCR-2, based on disbursement to beneficiaries' accounts.
- Local deposits into foreign currency accounts (e.g., drafts, traveler's cheques, cash) and purchases from Bangladeshi nationals abroad are reported in FCR-3.

This multi-channel approach allows for the real-time tracking of remittances and provides a robust dataset for analysis. The timely and detailed collection of remittance inflows enables us to present accurate and up-to-date trends, offering critical insights into the flow of foreign exchange into Bangladesh.

### 1.4 Implications for Policy Analysts and Stakeholders

For policymakers, government ministries and research organizations, this publication offers vital data to inform decisions on how best to support the migrant workforce and enhance the economic benefits of remittances. Ministry of Finance, Ministry of Expatriates' Welfare and Overseas Employment, and Planning Commission can utilize this data to develop more targeted policies aimed at facilitating remittance flows, improving the financial inclusion of recipients, and addressing the needs of migrant workers abroad. Additionally, for research institutions and policy makers, these data serves as a foundation for further analysis on how remittances can be leveraged to promote sustainable development, reduce inequality, and strengthen long-term economic resilience.

### 1.5 Authority

Article 69 of the Bangladesh Bank order, 1972 (President's Order No. 127 of 1972) authorizes Bangladesh Bank to request from Natural or Juridical persons including the government, such data or information as required for proper execution of its responsibilities.

### 1.6 Dissemination of Workers' Remittance Inflows Statistics

Statistics Department, Bangladesh Bank has been publishing daily workers' remittance data on Bangladesh Bank website (www.bb.org.bd) on weekly basis. This department also publishes country-wise, district-wise and bank-wise data on monthly basis on the Bangladesh Bank website in the following link. **www.bb.org.bd/en/index.php/econdata/wageremitance**

Statistics Department, Bangladesh Bank also provides these data to different ministries, other government, non-government and international organizations, consulates, embassies as per requirements.

Workers' remittance data is also published in the NSDP (National Summary data Page) Portal of Bangladesh Bank website on monthly basis.

# Chapter 2: Review on Workers' Remittance Inflows in Bangladesh

## 2.1 Key Highlights

The significant points relating to Monthly Workers' Remittance Inflows in Bangladesh for the month of October, 2025 are presented below:

During the month of October, 2025 the workers' remittance inflows stood at USD 2,562.44 million compared to a decrease of USD 123.12 million or 4.58% over the previous month September, 2025 and an increase of USD 167.36 million or 6.99% over the same month of previous year (Table-1).

During the Fiscal year 2025-26 (July-Oct) the workers' remittance inflows stood at USD 10,147.76 million compared to an increase of USD 1210.65 million or 13.55% over the same period of previous fiscal year. (Table-2)

**Table 1: Comparison of Monthly Workers' Remittance Inflows**

*In million USD*

| Period | Oct, 2024 | Sep, 2025 | Oct, 2025 | Growth (% ) | |
|---|---|---|---|---|---|
| | | | | Oct, 2025 over Sep, 2025 | Oct 2025 over Oct, 2024 |
| Remittance | 2,395.08 | 2,685.56 | 2,562.44 | -4.58% | 6.99% |

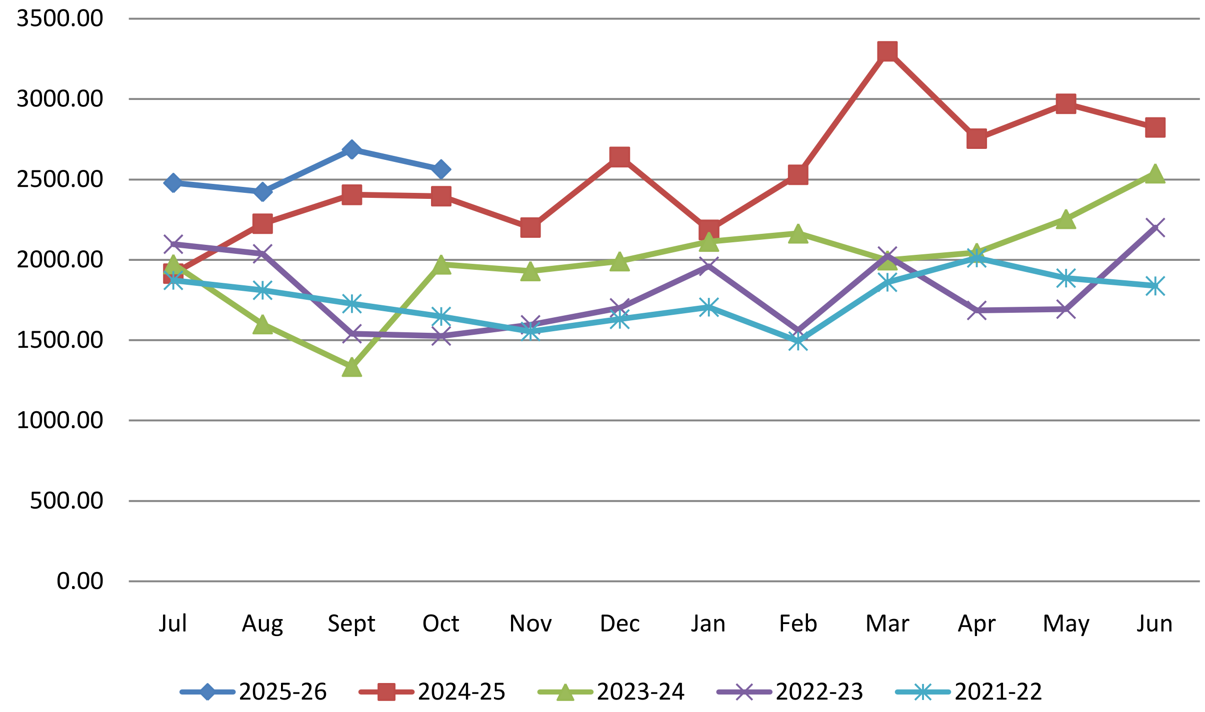
## 2.2 Monthly Workers' Remittance Inflows

The following table shows the amount of month wise workers' remittance inflows. By analyzing the figures, we see that the trend line of remittance inflows increases day by day. At every year during the month of religious festivals and other occasions the remittance inflows increases. At the ends month of the fiscal (June) or calendar year (December) the remittance inflows also increases. The monthly position is shown in Figure-1 and monthly growth of remittance inflows is shown in the Table -3.

**Figure 1: Monthly Trendline on Workers' Remittance Inflows**



### Table 3: Month-over-Month Workers' Remittance Growth

| Fiscal Year | Jul | Aug | Sept | Oct | Nov | Dec | Jan | Feb | Mar | Apr | May | Jun |
