## **Chapter 1: Introduction**

### **1.1 Introduction:**

Remittance is one of the important sources of revenue for a country and plays a vital role in its economic growth and development. Remittances represent household income from foreign economies arising mainly from the temporary or permanent movement of people to those economies. Remittances include cash and non-cash items that flow through formal channels, such as via electronic wire, or through informal channels, such as money or goods carried across borders. When migrants send home part of their earnings in the form of either cash or goods to support their families, these transfers are known as workers' or migrant remittances. It has been growing rapidly in the past few years and now represents the largest source of foreign income for many developing economies.

Remittances play an increasingly large role in the economies of small and developing countries. They also play an important role in disaster relief, often exceeding official development assistance (ODA). They help raise the standard of living for people in low-income nations and help combat global poverty. In fact, since the late 1990s, remittances have exceeded development aid and in some cases make up a significant portion of a country's gross domestic product (GDP).

Workers' remittances play a pivotal role in the economy of Bangladesh, serving as one of the largest sources of foreign exchange. About 1.30 crore Bangladeshi nationals are working in different parts of the world. Inward remittance from the Bangladesh expatriates is very significant for the nation as well as for the Bank. Expatriates remittances are one of the largest sources of foreign currency. Manpower export plays an important role for poverty alleviation and helps reduction of unemployment, the core problem of densely populated country like Bangladesh.

In recent years, remittance inflows have been crucial for maintaining economic stability, particularly in the face of global economic uncertainties and domestic challenges. In the current political and economic landscape, marked by inflationary pressures, exchange rate fluctuations, and rising import costs, remittances have provided much-needed relief by bolstering foreign currency reserves and supporting millions of households across the country. The steady flow of remittances has been a stabilizing factor, contributing to poverty reduction, improved living standards, and regional development. In the context of the ongoing economic recovery post-pandemic, coupled with political transitions, remittances are even more critical in sustaining economic growth, ensuring liquidity in the banking sector, and reducing reliance on external borrowing.

The global remittance flow for 2023 was estimated at \$860 billion. \$669 billion of the estimated global remittances in 2023 have gone to low and middle income countries. With an estimated remittances inflow of \$125 billion in 2023, India is the top recipient of remittances in the world. The USA received an estimated \$7.23 billion inflow of remittance in 2023.

Bangladesh received \$23.9 billion in FY 2023-24 and stood among the top 10 workers' remittance receiving countries in the world.

## **1.2 Overview of Remittance Trends:**

This publication presents an in-depth analysis of workers' remittance inflows, focusing on several key dimensions. The Monthly Trend of Workers' Remittance Inflows examines the fluctuations in remittance receipts over the past months, while the Yearly Trend offers a broader view of remittance growth patterns. A breakdown of remittances from the top 15 countries provides insight into the major sources of these inflows. Additionally, a region-wise, division-wise, and district-wise analysis further uncovers the geographic distribution of remittances within Bangladesh, highlighting areas where these funds have the most significant impact. Scheduled bank wise, district wise, country wise time series has been added as annexure in this publication.

## **1.3 Data Source:**

Considering the importance of remittance in the economy, Statistics Department, Bangladesh Bank has been collecting daily worker's remittances data along with home district of Non-Resident Bangladeshi working abroad (remitter) from June, 2016 to till date. Previously the Foreign Exchange Policy Department has been collected the data. The remittance data presented in this publication is meticulously collected from all scheduled banks operating in Bangladesh on daily basis. These banks compile data through several channels to ensure comprehensive coverage of workers' remittance inflows. The head offices of ADs shall submit i.e. upload daily transaction of workers' remittance on the basis of disbursement to beneficiary accounts in a consolidated form covering figures from all AD branches/departments in currency-wise and district-wise through RIT named T\_ME\_D\_REMITTANCE (T→ Template, ME→ Monetary and Economic, D→ Daily) maintained by Statistics Department, Bangladesh Bank, Head Office, Dhaka on the following day before 11 A.M. The AD must satisfy itself about full coverage of all NRB (Wage earners) remittances data in this template and in summary statement FCS-7 with specific schedules FCR-1,2,3,4.

The primary sources of data collection include:

- Inward remittance deposits through banking channels into Foreign Currency (FC) accounts and FDD/TTs purchased from Bangladeshi nationals abroad for family support are reported in FCR-1.
- Inward remittances received through Taka accounts of non-resident bank branches, correspondents, exchange houses, and subsidiaries abroad are reported in FCR-2, based on disbursement to beneficiaries' accounts.
- Local deposits into foreign currency accounts (e.g., drafts, traveler's cheques, cash) and purchases from Bangladeshi nationals abroad are reported in FCR-3.

This multi-channel approach allows for the real-time tracking of remittances and provides a robust dataset for analysis. The timely and detailed collection of remittance inflows enables us to present accurate and up-to-date trends, offering critical insights into the flow of foreign exchange into Bangladesh.

#### **1.4 Implications for Policy Analysts and Stakeholders:**

For policymakers, government ministries and research organizations, this publication offers vital data to inform decisions on how to best support the migrant workforce and enhance the economic benefits of remittances. Ministries of Finance, Expatriates' Welfare, and Economic Planning can utilize this data to develop more targeted policies aimed at facilitating remittance flows, improving the financial inclusion of recipients, and addressing the needs of migrant workers abroad. Additionally, for research institutions and policy makers, this data serves as a foundation for further analysis on how remittances can be leveraged to promote sustainable development, reduce inequality, and achieve long-term economic resilience.

#### **1.5 Authority:**

Article 69 of the Bangladesh Bank order, 1972 (President's Order No. 127 of 1972) authorizes Bangladesh Bank to request from Natural or Juridical persons including the government, such data or information as required for proper execution of its responsibilities.

#### **1.6 Dissemination of Workers' Remittance Inflows Statistics**

Statistics Department, Bangladesh Bank has been publishing daily worker's remittances data on Bangladesh Bank website ([bb.org.bd](http://bb.org.bd)) on weekly basis. This department also publishes country wise, district wise and bank wise data on monthly basis on the Bangladesh Bank website in the following link. <https://www.bb.org.bd/en/index.php/econdata/wageremittance>

Statistics Department, Bangladesh Bank also provide these data to different ministries, other government, non-government and international organizations, consulates, embassies as per requirements.

Worker's remittances data also published in the NSDP (National Summary data Page) Portal of Bangladesh Bank website on monthly basis.

## **Chapter 2: Review on Workers' Remittance Inflows in Bangladesh**

### **2.1 Key Highlights**

The significant points relating to Monthly Workers' Remittance Inflows in Bangladesh for the month of September, 2024 are presented below:

During the month of September, 2024 the workers' remittance inflows stood at USD 2,404.11 million compared to an increase of USD 179.96 million or 8.09% over the previous month August, 2024 and an increase of USD 804.66 million or 50.31% over the same month of previous year. (Table-1)

During the Fiscal year 2024-25 (July-September) the workers' remittance inflows stood at USD 6,542.06 million compared to an increase of USD 1,634.96 million or 33.32% over the same period of previous fiscal year. (Table-2)

**Table 1: Monthly Comparison of Workers' Remittance Inflows**

Period	Sep, 2023	Aug, 2024	Sep, 2024	In million USD	
				Sep, 2024 over Aug, 2024	Sep, 2024 over Sep, 2023
