Important policy measures taken by the government for revenue mobilization in FY26*

Each year, the government increases its revenue target to accommodate the rising demands for budgetary expenditures. Accordingly, the national budget outlines key policy measures and action plans aimed at enhancing revenue mobilization. The main policy initiatives adopted by the government for FY26 are summarized below:

- The government took steps to separate tax policy-making from tax administration, to improve fairness, efficiency and accountability of the revenue system.
- The NBR published a "Medium- and Long-Term Revenue Strategy (MLTRS)" aiming to modernize revenue administration and improve compliance.
- To rationalize the existing tax expenditure structure and curb the culture of indiscriminate tax exemptions, a Tax Expenditure Policy and Management Framework (TEPMF) has recently been adopted for reducing tax expenditures gradually.
- The NBR and the Institute of Chartered Accountants of Bangladesh (ICAB) have introduced the Document Verification System (DVS) to ensure transparency in audited statements. The E-TDS system has also been introduced for tracking tax deductions.
- The NBR installed Electronic Fiscal Device (EFD)/Sales Data Controller (SDC) in various sectors to ensure easy, transparent and hassle-free VAT collection for the general consumers which will make this project successful.
- To reduce the tax burden, ensure social protection and fairness, and keep pace with inflation, the tax-free income threshold for individual taxpayers has been increased.
- The filing of income tax returns has been simplified through an automated system. E-payment and Mobile Financial Services (MFS) have made paying taxes easier than ever. In the next fiscal year, an allocation of Tk. 134 crore has been made for facilitating the automation of the activities of the NBR so that taxpayers can pay taxes more easily.
