Comments on any aspects of this report are highly welcomed and can be sent through e-mails: jasim.uddin@bb.org.bd; syeda.jahan@bb.org.bd; and jasmin.akter@bb.org.bd.

Quarterly Report on Remittance Inflows in Bangladesh: October-December of FY26

Executive Summary

- ★ Remittance inflows showed increasing trend during the October-December of FY26. This inflows reached USD 8676.45 million (a 14.38 percent increase) compared to USD 7585.32 million in the preceding quarter. On a year-on-year basis, the growth was substantial higher by 19.94 percent during the same period of the previous fiscal year. The growing confidence of the Bangladeshi diasporas in banking channels and the effectiveness of policy measures contributed to higher remittance inflows.
- ★ During October-December of FY26, the highest volume of remittances originated from the Kingdom of Saudi Arabia (KSA), totaling USD 1306.15 million and accounting for 15.05 percent of total inflows. The KSA remittances was followed by USD 1175.04 million (13.54 percent) from the UAE, USD 1145.32 million from the United Kingdom (13.20 percent), USD 933.97 million (10.76 percent) from Malaysia and USD 658.47 million (7.59 percent) from the United States.
- ★ A total of 293474 workers, including 18225 women, migrated from Bangladesh during the October-December of FY26. Of the total migrants, the KSA accounted for 63.76 percent followed by Qatar (9.21 percent), Singapore (5.99 percent) and Kuwait (2.92 percent).
- ★ During the reporting quarter, remittances were primarily channeled through Private Commercial Banks (PCBs), which received USD 6129.46 million, accounting for 70.64 percent of the total inflows. State-owned Commercial Banks (SCBs) received USD 1634.79 million (18.84 percent), while Specialized Banks (SBs) brought USD 892.72 million (10.29 percent). Foreign Commercial Banks (FCBs) accounted for the smallest share, receiving USD 19.48 million or 0.22 percent of total remittances.

Remittance Inflows in Bangladesh (October-December of FY26)

During October-December of FY26, Bangladesh has experienced sustained and growing remittance earnings amid ongoing global economic uncertainties and domestic adjustment measures. This quarter recorded approximately USD 8676.45 million remittances, a positive year-on-year growth 19.94 percent compared to USD 7233.85 million in the corresponding quarter of FY25. This improvement was reflecting not only seasonal patterns in remittance behavior but also the impact of the effective policies and continued reliance on formal channels. Therefore, these earnings of remittance provide a crucial role in supporting foreign exchange reserves, strengthening macroeconomic stability, easing external sector pressure and overall economic resilience.

Moreover, the contribution of remittance to GDP has been increasing and in FY25 reached its peak. This higher inflow of remittances led to an estimated remittance-nominal GDP ratio of 7.66 percent in Q2FY26. Besides, remittances share relative to exports and imports showed significant improvement during Q2FY26 (Table-1).

Table-1: Trend of remittance growth and remittance as percentage of nominal GDP, export earnings and import payment					
FY	Total Remittance (Million USD)	Growth (%) of Remittance	Remittance (%) of nominal GDP	Remittance (%) of Export Earnings (f.o.b)	Remittance (%) of Import Payment (f.o.b)

2. Migration and Remittance Inflows: October-December of FY26

The second quarter of FY26 marked a promising phase for Bangladesh's migration and remittance sector in the recent trajectory. In October-December FY26, migration performance was significant in terms of manpower export as well as its direct linkage with remittance inflows. During this quarter, Bangladesh earned USD 8676.45 million remittances whereas, migration was about 293474 workers (Chart 1).

According to statistics from the Bureau of Manpower, Employment and Training (BMET), overseas migration in October-December of FY26 maintained a strong pace, with total annual migration exceeding one million workers. During October-December quarter specifically, deployment of workers continued steadily, supported by labor demand in key destination countries such as Saudi Arabia, the United Arab Emirates, Qatar and Oman. Saudi Arabia remained the dominant destination, accounting for the majority share of Bangladeshi migrant workers.

The sustained migration flow during this quarter reflected several structural factors, including bilateral labor agreements, post-pandemic labor market normalization in GCC countries and efforts by the Government of Bangladesh to expand overseas employment opportunities. In addition, improved administrative processes and clearance of recruitment backlogs contributed to higher worker deployment in the time period.

3. Bank-wise Remittance Inflows: October-December of FY26

Bank-wise remittance inflows were shaped by a combination of network reach, digital services, partnership with foreign exchange houses, geographic coverage and customer trust. Banks with stronger remittance systems and wider connections usually attracted a higher share of migrant earnings.

During October-December of FY26, remittance earnings amounted to USD 8676.45 million which was USD 7585.32 million in the previous quarter. The uptick was attributed to a narrowing of the gap between the official exchange rate and informal (“hundi”) channels, making formal channels relatively more attractive. During October-December of FY26, private commercial banks (PCBs) received USD 6129.46 million remittances (70.64 percent of total), which was 17.27 percent higher than that of previous quarter (USD 5226.59 million) and 34.31 percent higher than that of the same quarter a year ago (USD 4563.65 million) respectively. By receiving USD 1871.42 million (21.57 percent of the total), Islami Bank Bangladesh PLC remained the highest amount of remittance receiver among the PCBs as usual (Chart-2 and Annexure-3).

State-owned Commercial Banks (SCBs) received USD 1634.79 million remittances (18.84 percent of total), which was 6.07 percent higher than that of the previous quarter while 28.01 percent lower than that of the same quarter of previous fiscal year.

Among the SCBs, the highest amount of remittances was received by Agrani Bank PLC (USD 632.91 million, 7.29 percent of total) followed by Janata Bank PLC (USD 607.59 million, 7.00 percent of total) and Rupali Bank PLC (USD 201.75 million, 2.33 percent total) (Chart-2 and Annexure-3).

Foreign Commercial Banks (FCBs) collected only USD 19.48 million remittances (0.22 percent of total) during October-December of FY26 which was 30.80 and 6.57 percent lower than that of the previous quarter and the same quarter of the previous fiscal year respectively. Among the FCBs, Standard Chartered Bank became the highest remittance receiver bank by collecting USD 16.39 million (Annexure-3).

Among the specialized banks, Bangladesh Krishi Bank received the maximum amount of remittances (USD 892.72 million) during October-December of FY26. The top 10 (ten) remittance recipient banks during the period under report were Islami Bank Bangladesh PLC, Bangladesh Krishi Bank, Agrani Bank PLC, BRAC Bank PLC, Janata Bank PLC, Trust Bank Ltd., Eastern Bank PLC, City Bank PLC, Bank Asia PLC and Mutual Trust Bank PLC.

4. Country-wise Remittance Inflows

Bangladesh received the maximum amount of remittances from the KSA (USD 1306.15 million) which was 15.05 percent of total remittances during October-December of FY26. The second largest amount of remittances came from the UAE which was USD 1175.04 million (13.54 percent of total remittances).

In addition, remittance earnings of total remittances recorded from the United Kingdom (13.20 percent), Malaysia (10.76 percent), the USA (7.59 percent), Oman (5.93 percent), Italy (5.92 percent), Kuwait (5.07 percent), Qatar (4.82 percent) and other countries (18.11 percent) respectively in this quarter (Chart-3).

Region-wise remittance inflows showed that remittances received from the Gulf countries was USD 4082.43 million (47.05 percent), EU countries remitted USD 1701.08 million (19.61 percent) and Asia-Pacific region sent USD 1353.44 million (15.60 percent) during October-December of FY26 (table-2). Country-wise trends of remittance inflows from FY20 to FY26 (Up to December) are shown in Annexure-2.

* excluding 14 countries mentioned this table.

5. Country-wise Migration (Male vs Female)

Migration outflow showed a positive trend during the quarter. According to the data of Bureau of Manpower, Employment and Training (BMET), a total of 1116376 workers were reported to have migrated abroad in 2025 (Annexure-1). Meanwhile, about 293474 workers migrated for employment during the reporting period.

Country-wise data on migration showed that most of the Bangladeshi immigrants went to the KSA, which was about 187109 (63.76 percent of the total migration), followed by Qatar (9.21 percent), Singapore (5.99 percent), Kuwait (2.92 percent), Jordan (1.56 percent), the UAE (1.42 percent) and other countries (13.54 percent) during this period. More information can be seen from Table-3 and Chart-4.

Among the total migration, 18225 female workers migrated abroad during this quarter which was 6.21 percent of total migration (Table-3 and Chart-5). Moreover, annexure-1 showed country-wise annual data on overseas employment.

Table-3: Quarterly Trend of Country-wise Migration						
Country	Jul-Sep' 24	Oct-Dec'24	Jan-Mar'25	Apr-May'25	Jul-Sep' 25	Oct-Dec'25

6. Measures Taken by the Government and the Bangladesh Bank

To encourage the remittance inflows through the banking channel, Bangladesh government and Bangladesh Bank have taken a number of measures during the couple of years, of which some important are stated below:

- The government announced 2 percent cash incentive for the first time for inward foreign remittance through banking channel which became effective from 1 July 2019. Cash incentive for inward remittances has been increased to 2.5 percent from 2 percent with effect from 1 January 2022.

Moreover, it has been decided that the United Nations peace keeping mission officials of army/navy/air-force/ police who are engaged in different missions of the world will get the cash incentive against their foreign earnings at 2.5 percent for sending it through banking channel into the country with effect from 1 January 2022.

- For simplification of the procedure of paying cash incentive, Bangladesh Bank (BB) has given some instructions to banks which includes:
 - a) Remitters' documents will have to be submitted to his /her banks by the remittance senders banks;

- b) Remittance sender bank will verify the documents by itself and send the confirmation to the receiver bank to release the cash incentives at the quickest possible time;
 - c) Receiver bank will release incentive to the sender bank on the basis of the confirmation and
 - d) The remittance receiver bank will collect and verify documents by itself in case of the same receiver bank and sender bank.
- As per instructions, Wage Earners' Remittance data have to be submitted through Rationalized Input Template (RIT). The statement of money paid should be submitted on monthly basis following a specific form regarding 2 percent cash incentive for inward remittance through formal channel. The information of expatriates will have to be preserved at the database format and banks will have to provide the required information as early as possible following the online - RITs (T_ME_M_REMIT_INCEN) format. Documents required to be submitted on monthly basis within the 10th day of next month (through the web portal of Bangladesh Bank).
- To facilitate inward remittances, it has been decided that declaration on Form-C under GFET shall not be required for inward remittances up to USD 20,000 or its equivalent.
- In addition, the government and Bangladesh Bank have implemented various proactive measures to uplift the inflow of remittances and improve the condition of Bangladesh economy and working environment of the countries where Bangladeshi migrant workers are employed. These steps include waiving the money transfer fees charged by local banks for expatriate remitters, allowing the MFS to participate in the remittance collection & distribution process, simplifying the remittance repatriation and cash incentive distribution processes by encouraging overseas employment for the higher inflow of remittances.
- After that, licensed PSPs (Payment Service Providers) will also get permission to sending remittance of expatriate in association with internationally recognized online payment gateway service providers (OPGSPs)/banks/digital

wallets/card schemes and/or aggregators abroad (hereinafter referred to as approved/licensed foreign payment service providers, foreign PSPs). In this context, foreign PSPs receive foreign currency in their account and equivalent Taka value will be credited to the wage earners' PSPs accounts.

- Moreover, the government has recently introduced a universal pension scheme where a special scheme has also been introduced namely 'PROBASH'. In the scheme, the remitter will get same incentive in case of depositing money in foreign currency against his/her installment.

7. Near-term outlook

In the near term, remittance earnings of Bangladesh are expected to remain relatively resilient. However, smooth inflows of remittance would depend on easing geopolitical tension. Despite high remittance inflows with large stock of existing migrant workers, remittance growth could slow down due to migration disruptions and economic uncertainty in host countries. The magnitude of the impact will largely depend on the duration and geographic spread of the US-Iran conflict. A brief conflict may have only limited effects, whereas a prolonged regional crisis could significantly reduce remittance inflows and intensify pressure on external sector of Bangladesh.
