The amount of deposits against "Zero" rate of interest under "Deposits Withdrawable on Sight" represents mainly the bills payables such as MT, DD, TT, outstanding drafts etc. Depositors will have the option for withdrawing interest accumulated every twelve months or can have the interest with the principal to be compounded in case of maturity exceeding one year. Profit/Loss is applicable in the cases of Islamic Shariah Based Banks.

Table 26 to 31: Deposits Distributed by Size of Accounts: The Statistics of number of Accounts and corresponding amount falling within specified groups are not based exclusively on individual accounts. As the number of accounts is considerably large, the respondents have the option to combine the accounts and amount in such cases when the types of deposits, the category of depositors and the rates of interest allowed thereon are the same. In such cases it is not the actual size of components but the average size of the group that determines the class to which it belongs. Notwithstanding the existence of an element of statistical errors, it is believed that the estimates would not differ significantly from the actual position.
