Chapter 1: Introduction

1.1 Introduction

The collection and analysis of banking data have profound implications for the overall economy of Bangladesh. Since July 1974, the Statistics Department of Bangladesh Bank has played a crucial role in gathering comprehensive information on deposits, debits, loans and advances, bills, and other relevant economic indicators from all scheduled banks operating in the country. Moreover, the availability of detailed data on SMEs (small and medium enterprises), large industries, deposit and lending rates, interest rate spreads, economic purpose-wise credits, and sector-wise disbursement, recovery, outstanding amounts, and overdue payments offers valuable insights for planning economic development initiatives.

By utilizing this information, policymakers can formulate effective monetary policies that align with the country's economic objectives. The data also contributes to the development of credit policies that foster responsible lending practices and support the growth of the banking sector. It enables policymakers to identify potential growth areas, allocate resources efficiently, and implement targeted measures to address specific challenges within the banking sector and the broader economy.

1.2 History of "Scheduled Banks Statistics" publication

The meticulous collection of such data creates a consistent and reliable database. This data is collected quarterly in the prescribed formats (SBS-2 and SBS-3) and published quarterly in the "Scheduled Banks Statistics" publication of Bangladesh Bank. From its inception, the 'Scheduled Banks Statistics' were collected and published quarterly. Later on, since December 1988, the data had been collected on a half-yearly basis and published on an annual basis ending December every year. Subsequently, from December 1990, the data were collected on quarterly basis but published on an annual basis. Then, it was decided to publish again on a quarterly basis from June 1992, and the present publication follows as a sequel to the change in the policy decision.

The role of agricultural credit in fostering the economy of the country has gained importance in present times. To this end in mind, agricultural credit statistics time series data were collected and presented pertaining to the period from 1983-84 to 2022-23 (up to Jul.-Sep., 2023). Moreover, for taking into account the remittances (in foreign currency) by the wage earners abroad, two types of deposits: 1) wage earners' deposits & 2) resident foreign currency deposits have been introduced from the quarter ending in December 2001.

From July-September 2013, the scheduled banks were instructed to follow the 'Guidelines to Fill in the Banking Statistics Returns SBS-1, SBS-2 & SBS-3' fifth edition, published in July 2013. In this brochure, all statistical tables have been prepared on the basis of returns submitted by the scheduled banks as per the booklet published in July 2013. The preparation and circulation of "Scheduled Banks Statistics" booklet (hard copy) has been discontinued from 2013 under green banking initiatives of Bangladesh Bank. However the softcopy of the quarterly publication is available in Bangladesh Bank website. The "Scheduled Banks Statistics" publication has been modified especially in the contents, introduction and review from April-June 2023. The figures published in this booklet may differ from those contained in the statement of position of scheduled banks released each week by the Bangladesh Bank due to differences in timing and coverage.

1.3 History of scheduled banks operating in Bangladesh

After liberation, the banks operating in Bangladesh (except those incorporated abroad) were nationalised. These banks were merged and grouped into six commercial banks. Of the total six

commercial banks, Pubali Bank Ltd. and Uttara Bank Ltd. were subsequently transferred to the private sector with effect from January 1985. Rupali Bank was transferred to a public limited company in December 1986. The other three state owned banks were operating as a public limited company from the quarter of October-December 2007. The two state-owned specialised banks were renamed Bangladesh Krishi Bank and Bangladesh Shilpa Bank. In March 1987, Bangladesh Krishi Bank was bifurcated, and another specialised bank emerged as Rajshahi Krishi Unnayan Bank (RAKUB) for the Rajshahi and Rangpur divisions.

Bank of Small Industries & Commerce Bangladesh Ltd. (BASIC) started its operation as a private bank in September 1988 and renamed its abbreviation Bangladesh Small Industries and Commerce Bank Ltd. on September 30 2001. Later on, the government of Bangladesh took over 100 percent ownership of this bank on June 1992 and was categorized as a specialised bank. From July 1995, the BASIC bank again was categorized as a private bank, and in 1997, the government decided to treat this bank as a specialised bank again. But in January 2015, the government decided to treat this bank as a state-owned bank. So, in this booklet, since January-March 2015, the BASIC bank has been treated as a state-owned bank. Bangladesh Shilpa Bank (BSB) and Bangladesh Shilpa Rin Sangstha (BSRS) merged and renamed Bangladesh Development Bank Limited (BDBL) in the quarter of January-March 2010, treated as a specialised bank. But, from the quarter (April-June 2015), according to the government decision, BDBL is being treated as a state owned bank.

Standard Chartered Grindlays Bank was merged with Standard Chartered Bank during the quarter of January-March 2003. American Express Bank also merged with Standard Chartered Bank in October-December 2005. The Oriental Bank Ltd., an Islamic private bank, was renamed ICB Islamic Bank Ltd. in the quarter of April-June 2008. Credit Agricole Indosuez, a foreign private bank, was renamed Commercial Bank of Ceylon Ltd. in October-December 2003. Shamil Bank was renamed Bank Al-Falah Ltd. in April-June 2005. Arab Bangladesh Bank Ltd. was renamed AB Bank Ltd. in January-March 2008, and Social Investment Bank Ltd. was renamed Social Islami Bank Ltd. in April-June 2009. It is mentioned that First Security Bank Ltd. started its operation according to Islamic Sariah in January-March 2009. Shahjalal Bank Ltd. started its operation according to Islamic Sariah in April-June 2001. It was renamed Shahjalal Islami Bank Ltd. in April-June 2004, and EXIM Bank Ltd. also started its operation according to Islamic Sariah in July-September 2004. The branches of foreign banks operating in Bangladesh are being treated as foreign private banks.

NRB Commercial Bank Ltd., South Bangla Agriculture and Commerce Bank Ltd., Meghna Bank Ltd., The Farmers Bank Ltd., and Union Bank Ltd. started their operation in April-June 2013, and Midland Bank Ltd., Modhumoti Bank Ltd., NRB Bank Ltd. have started their operation from July-September 2013. Then, NRB Global Bank Ltd. started its operation in October-December 2013. After that, Shimanto Bank Ltd. started its operation in October-December 2016. Later, Probashi Kallyan Bank started its operation as a specialised bank in July-September 2018, and Community Bank Bangladesh Ltd. started its operation in October-December 2018. In January 2019, The Farmers Bank Ltd. was renamed Padma Bank Ltd. In January-March 2021, Standard Bank Ltd. and NRB Global Bank Ltd. transformed into Islami bank, and NRB Global Bank Ltd. was renamed Global Islami Bank Ltd. from January-March 2021. Bengal Commercial Bank Ltd. started its operation in January-March 2021, and Citizens Bank PLC. started its operation in July-September 2022.

All such banks operating in Bangladesh with different paid-up capital and reserves have a minimum aggregate value of Tk. 50 lac and conducting their affairs to the satisfaction of the Bangladesh Bank have been declared as scheduled banks in terms of section 37(2) of Bangladesh Bank Order 1972. In terms of section 13 of the Bank Company Act, 1991, the minimum aggregate value was Tk. 20 crore. From March 30 2003, it was Tk. 100 crore and from October 8 2007, it was Tk. 200 crore. From August 11 2011, it has been raised at the minimum of Tk. 400 crore (as per Circular Letter No. BRPD(R-1)717/2008-511 dated August 12 2008). 2.2 Notes on statistical tables

For a useful presentation of data, scheduled banks have been classified into several groups, such as 'All banks', 'State owned banks', 'Specialised banks', 'Foreign banks', and 'Private banks' (Including Islamic banks). A separate subgroup named 'Islamic banks' has been introduced consisting of banks (incorporated in Bangladesh), run on the basis of islamic sariah with effect from January-March 1998. The publication provides a detailed analysis of bank deposits (excluding interbank) mainly in the form of 'by types & sectors', 'by rates of interest & types', 'by types of account'; outstanding advances (excluding inter-bank transactions) mainly in the form of 'by rates of interest & securities', 'by securities', 'by size of account', 'by economic purposes' etc. and bills mainly in the form of 'by sectors'.

Table-1: Divisions and districts-wise distribution of per capita deposits and advances on the basis of population: The table furnishes the division/district-wise distribution of population, number of reporting bank branches, per capita deposits and advances.

Table-2 to 7: Deposits distributed by types of accounts: These tables show the classification of total demand and time liabilities of scheduled banks (excluding inter-bank) into fourteen broad types such as (a) Current and Cash Credit Account (credit balances) Deposits, (b) Deposits Withdrawable on Sight, (c) Savings Deposits, (d) Convertible Taka Accounts of Foreigners, (e) Foreign Currency Accounts, (f) Wage Earners' Deposits, (g) Resident Foreign Currency Deposits, (h) Special Notice Deposits, (i) Fixed Deposits, (j) Recurring Deposits, (k) Margin Deposits (Foreign Currency/Taka), (l) Special Purpose Deposits, (m) Negotiable Certificates of Deposits & Promissory Notes and (n) Restricted (Blocked) Deposits.

Table 8 to 13: Deposits distributed by divisions and districts and areas (Urban & rural): These tables show the district-wise distribution of deposits in urban and rural regions of the country. It is mentioned that the transaction of the branches in a municipal area is treated as an urban area transaction (deposits or advances as the case may be), while the transaction of the branches located outside the municipal area is regarded as a rural area transaction.

Table 14 to 19: Deposits distributed by sectors and types: These tables provide a breakdown of deposits by different sectors of deposits mentioned in paragraph number two.

- Table 20 to 25: Deposits distributed by rates of interest or profit and types: These tables show the rates of interest allowed by the scheduled banks on different types of deposits. No interest is allowed on current deposits (Code no. 100) and deposits withdrawable on sight, while interest is allowed on current deposits (Code no. 105), savings deposits, fixed deposits, pension scheme deposits and foreign currency accounts of non-residents and residents. The rate of interest varies from time to time. The amount of deposits against the "zero" rate of interest under "Deposits Withdrawable on Sight" represents mainly the bills payables such as MT, DD, TT, outstanding drafts etc. Depositors will have the option to withdraw interest accumulated every twelve months or can have the interest with the principal to be compounded in case of maturity exceeding one year. Profit/Loss is applicable in the cases of Islamic Shariah based banks.
- **Table 26 to 31: Deposits distributed by size of accounts:** The statistics of the number of accounts and corresponding amounts falling within specified groups are not based exclusively on individual accounts. As the number of accounts is considerably large, the respondents have the option to combine the accounts and amount in such cases when the types of deposits, the category of depositors and the rates of interest allowed thereon are the same. In such cases, it is not the actual size of components but the average size of the group that determines the class to which it belongs. Notwithstanding the existence of an element of statistical errors, it is believed that the estimates would not differ significantly from the actual position.
- **Table 32: Deposits distributed by size of accounts and sectors:** The tables provide a break up of deposits by size of accounts and sector.
