**Market Engagement Conference**  
**for Financial Sector Support Project – II (FSSP-II)**

Bangladesh Bank (BB) has undertaken the Financial Sector Support Project-II (FSSP-II), with the financial assistance from the World Bank (WB). A key objective of the project is to modernize and automate BB's business processes, strengthen its institutional capacity, and assist banks and non-banking financial institutions (NBFIs) in leveraging ICT to improve efficiency, enhance enterprise risk management, and reinforce regulatory and policy frameworks. Under FSSP-II, procurement will be a critical component, involving consultancy services and ICT packages aimed at strengthening BB's supervisory capacity, technological infrastructure, and regulatory systems.

The project procurement is to follow the World Bank's Procurement Regulations for Investment Projects Financing (IPF) borrowers. While the project is currently under preparation, it is planned that the procurement of inputs for the project realization will commence immediately following approval of the project, expected FY 2026-2027. As the process of designing fit-for-the-purpose Project Procurement Strategy for Development (PPSD), greater use of early stakeholder and market engagement to understand market context and get the right Suppliers and Consulting Firms has been planned.

In view of the above, the Bangladesh Bank hereby invites interested private sector stakeholders and industry players (i.e. Suppliers and Consulting Firms) working in the ICT Industry (Hardware and Software) to a Two-hour Consultation Meeting at **3:30 PM on 28 September 2025 (Sunday)** at the Jahangir Alam Conference Hall (4th Floor, Main Building), Bangladesh Bank Head Office, Motijheel Commercial Area, Dhaka-1000, by sending representatives at top management level who have good understanding of the market and its firm experience. Note that the market engagement is relevant to suppliers and consultants who have experience in supplying/providing services with single contract value of US\$ 1 million and above.

The objectives of the meeting are to relay general information on the project to private sector stakeholders, present details of the procurement components, including nature of the procurement, delivery models, market approach, expected procurement packages and implementation arrangements, and receive feedback from vendors on the suitability and sustainability of the proposed project design. The consultation is also to help to hear from the industry players as a process of market engagement and use the market information for project procurement strategy preparation.

We strongly encourage the potential Bidders (Suppliers and Consulting Firms) working in the ICT Industry (Hardware and Software) to participate in this process and to use the meeting as an opportunity to ask questions and provide comments regarding this upcoming project procurement opportunity. Interested companies are requested to send only one representative per organization. International companies who are unable to participate in person are also encouraged to join through online subject to prior confirmation as mentioned below (link will be shared through email up on confirmation).

A 'Market Analysis Survey Form' is available with this invitation notice, which has been prepared to collect some specific experience and capacity related information of the potential Bidders. Please send your **interest to participate** in the aforesaid event along with the **filled-up form** to the email address mentioned below. The project will send you a **confirmation email** for participation prior to the event.

Please send email to [mnazmul.huda@bb.org.bd](mailto:mnazmul.huda@bb.org.bd) on or before **5:00 PM, 23 September 2025**.
