Chapter 1: Introduction

1.1 Introduction

From fiscal year 2016-17 the publication of “Annual Export Receipts” has been renamed as “Annual Export Receipts of Goods and Services”. This annual publication on export receipts provides details of export earnings through transactions in cash foreign exchange as reported to the Bangladesh Bank by the authorized dealers (bank branches dealing with foreign exchange transactions). The information has been presented by both commodities and countries. In addition, separate time series data for exports both by commodities and by countries have also been incorporated. The book is being published in section and chapter-wise according to the International Trade Classification (ITC) since 1972. The initiatives have been taken to organize the chapters along with sections incorporating first 4-digits commodity codes based on ITC from fiscal year 2012-13 for user’s convenience. The short descriptions are adopted. The detail information of export receipts of services and also agricultural, horticulture products have been incorporated from fiscal year 2016-17. Users are requested to read first schedule Bangladesh customs tariff for details descriptions, if necessary. The service data is classified according to Balance of Payments 6th manual (BPM6).

1.2 Classification, valuation and time of recording

1.2.1 Classification

The data are classified by commodities/purposes and countries, by countries and commodities. This has been done in accordance with the classifications embodied in “The Harmonized Commodity Description and Coding System”. In this system data are available more elaborately. Countries have been listed alphabetically. Country classification of the export data from the banking channel are based on the country of destination of goods. The export of services data from the banking channel are based on country of ordering customer.

1.2.2 Valuation

Authorized dealers report export receipts to the Bangladesh Bank separately for each currency of settlement. The Taka valuation of these export transactions for each currency is based on the monthly average of middle closing New York spot exchange rates. Generally, export contracts in Bangladesh are made on f.o.b. basis. Export earnings are based on valuation according to the terms of the export contract. Therefore, some transactions may include the cost of international freight and insurance premium. But the total value of such transactions is negligible.

1.2.3 Time of recording

The data relating to export receipts that have been published in this booklet may differ from those based on customs returns compiled by the Statistics Department of Bangladesh Bank from 2022-23 to 2024-25, as the shipment of goods recorded in the customs returns and the actual receipts of foreign exchange recorded in the foreign exchange returns submitted by the banks may take place on different dates. The Statistics Department of Bangladesh Bank compiles the export receipts data on the basis of foreign exchange returns, which record exports as and when actual proceeds are received. When advance payments are received, export receipts would precede the actual shipment of goods. Therefore, due to differences in the valuation, timing and coverage, the data published in this booklet and those compiled and published by the Bangladesh Bureau of Statistics/EPB are likely to differ.

1.3 Bloc/group/community/regions

The export receipts statements as included in this publication have been compiled in respect of transactions with twelve country groups. The export data presented in this publication under bloc/group/community/regions may differ from the previous publication due to the worldwide political realignment. The country groups are as under:

B4. Export by Export Processing Zones (EPZ) and Economic Zone (EZ)

In order to achieve rapid economic growth in the country by increasing the inflow of foreign investment, particularly through industrialization, special steps have been taken since 1980 by setting up Export Processing Zones (EPZ) in the country. Initially, three special zones were set up in Chittagong (Halishahar), Dhaka (Savar) and Khulna (Mongla), where favourable facilities/assistance are provided to potential investors, both Bangladeshi and foreigners. The Chittagong Export Processing Zone (CEPZ) started from 1983-84, while the Dhaka Export Processing Zone (DEPZ) started from 1993-94. Later, EPZs were also established in Mongla of Khulna, Ishwardi of Pabna, Cumilla, Uttara of Syedpur in the district of Nilphamary, Adamjee of Narayanganj and Karnaphuli of Chittagong, which are classified into three types i.e. A-type (100% foreign investment), B-type (joint venture between Bangladeshi and foreigners) and C-type (100% Bangladeshi enterprises). Additionally, the Bangladesh Export Processing Zones Authority-Economic Zone (BEPZA- EZ) was established in 2018 at Mirsharai, Chattogram, to promote economic progress further.

At the end of June 2025, the type-wise number of functioning enterprises in EPZ & EZ are shown in Table-5.
