Introduction

The yearly publication "Annual Import Payments of Goods and Services" incorporates details of Imports Payments of Goods under cash, loans and grants, other unclassified imports and imports of EPZ. Import statistics under loans and grants are collected from banking channel and other unclassified imports are obtained from CCI&E and BEPZA. Import Payments for EPZ enterprises to Abroad has been compiled based on banking channel Import Payments from fiscal year 2021-22. The book is being published in section and chapter wise according to International Trade Classification (ITC) since 1972 but for user's convenience initiatives have been taken to organize the chapters along with sections incorporating the first 4-digits commodity codes based on ITC from fiscal year 2012-2013. The short descriptions are adopted.

The detail information of Import Payments of Services and also Import Payments of Agriculture, Horticulture Products, Agri-Machineries and Fertilizers have been incorporated from fiscal year 2017-18. The service data is classified according to Balance of Payments 6th Manual (BPM6). Users are requested to read First Schedule Bangladesh Customs Tariff for details descriptions, if necessary.

Classification

The Import data are classified by commodities and countries, by countries and commodities. This has been done in accordance with the classifications embodied in "The Harmonized Commodity Description and Coding System". In this system data are available more elaborately. Countries have been listed alphabetically.

Country classification of the import data from the banking channel are based on the principle of country of origin of the goods, not the country of contract or shipment. For example, a trader from Bangladesh may enter into a trade contract with a dealer in country-A for the supply of certain goods originally produced in country-B. In such a case, the country classification of import would show country-B as the source although the import was actually contracted with country-A. The country classifications of aid financed import are also recorded in general on the basis of country of origin of the goods.

Valuation

Generally, the banking channel reports import transactions separately for each currency of settlement. The Taka valuation of the transactions for each currency is based on the monthly average of middle closing spot rates ruling on the New York exchange market.

Timing

The import figures as contained in this booklet will differ from those based on customs return (as published by Bangladesh Bureau of Statistics) because exchange control records report the imports when the obligations are settled by means of remittances through the banking channel, while import in the customs returns are entered at the time of physical entry of the goods into the country. Moreover, there are differences in coverage.

For example, gift parcels entering the country through postal channels and accompanied and unaccompanied dutiable baggage brought in by passengers are covered in the customs data, but the same are not reflected in the exchange records. On the other hand, the customs figures

exclude such items as fuel and other commodities for ship's stores purchased by resident ship carriers in foreign ports but the exchange records include them.

Imports by Export Processing Zone (EPZ):

In order to achieve rapid economic growth of the country by increasing the inflow of foreign investment, particularly through industrialisation, special steps have been taken since 1980 by setting up Export Processing Zone (EPZ) in the country in Chittagong (Haliahahar), Dhaka (Savar) and Khulna (Mongla) where favourable facilities/ assistance are provided to the potential investors, both Bangladeshi and foreigners. The Chittagong Export Processing Zone (CEPZ) started from 1983-84 while the Dhaka Export Processing Zone (DEPZ) started from 1993-94. Later, EPZs have also been established in Mongla of Khulna, Ishurdi of Pabna, Cumilla, Uttara of Syedpur in the district of Nilphamary, Adamjee of Narayanganj and Karnaphuli of Chittagong where the investments are classified into three types i.e., A-type (100% foreign investment), B-type (Joint venture investment between Bangladeshi and foreigners) and C-type (100% Bangladeshi entrepreneur's investment).

At the end of June, 2022 type-wise number of functioning enterprises in EPZ area are shown in Table-VI.
