## ***Fortnightly Major Economic Indicators***

**Monetary Policy Department**  
**Bangladesh Bank**

Comments on any aspects of the report are highly welcomed and can be sent to Ms. Sadia Sultana, Additional Director, Monetary Policy Department, Bangladesh Bank, e-mail: [sadia.sultana@bb.org.bd](mailto:sadia.sultana@bb.org.bd); Ms. Nabila Fahria, Joint Director, Monetary Policy Department, Bangladesh Bank, e-mail: [nabila.fahria@bb.org.bd](mailto:nabila.fahria@bb.org.bd); Mr. Asif Ahmed, Assistant Director, Monetary Policy Department, Bangladesh Bank, e-mail: [asif.ahmed951@bb.org.bd](mailto:asif.ahmed951@bb.org.bd) and Mr. Rashidul Hoque Timur, Assistant Director, Monetary Policy Department, Bangladesh Bank, e-mail: [rashidul.hoque@bb.org.bd](mailto:rashidul.hoque@bb.org.bd)

## Fortnightly Major Economic Indicators: 16-30 June 2025

**Broad money** increased by 6.95 percent at the end of June 2025 and stood at BDT 21,74,621.70 crore compared to 7.74 percent increase at the end of June 2024. This increase mainly stemmed from the increase in net domestic assets (NDA) during the period.

**Domestic credit** increased by 7.97 percent at the end of June 2025 and stood at BDT 22,84,036.80 crore compared to 9.80 percent increase at the end of June 2024. The increase in domestic credit has been driven primarily by the increase in credit to the public sector.

**Credit to the public sector** increased by 13.09 percent at the end of June 2025 and stood at BDT 5,36,361.20 crore compared to 9.66 percent increase at the end of June 2024. The positive credit growth in the public sector emerged from net credit to govt. sector. This increase in net credit to govt. is due to Government's effort to meet its planned expenditure amidst falling tax collection, increasing debt servicing and rising cost inflated price levels.

**Credit to the private sector** increased by 6.49 percent at the end of June 2025 and stood at BDT 17,47,675.60 crore compared to 9.84 percent increase at the end of June 2024.

**Deposit of the Banking System** increased by 7.77 percent at the end of June 2025 and stood at BDT 18,78,169.80 crore compared to 9.25 percent increase at the end of June 2024. The increase in bank deposits was mainly driven by an increase in time deposits during the period.

**Reserve money** slightly decreased by 0.11 percent at the end of June 2025 and stood at BDT 4,13,179.00 crore compared to 7.84 percent increase at the end of June 2024. Reserve money decreased due to decrease in Net Domestic Assets (NDA) of Bangladesh Bank, reflecting the tight monetary policy stance.

**Government borrowing from the banking system** increased by BDT 72,033.88 crore during 01 July-30 June FY25 against the increase of BDT 80,711.56 crore during 01 July-30 June FY24<sup>©P</sup>.

**NBR tax revenue** collection increased by 2.23 percent and stood at BDT 3,70,874.03 during FY25 compared to BDT 3,62,797.10 crore during FY24. The target for NBR tax revenue collection was revised and set at BDT 4,63,500.00 crore in the budget for FY25. NBR tax revenue collection in FY25 was 80.02 percent of the target set for the fiscal year.

**Exports<sup>u</sup>** increased by 8.60 percent to USD 48.30 billion during FY25 compared to 4.34 percent decrease during FY24. Exports increased mainly due to increase in manufactured products exports during the period.

**Custom-based imports** increased by 2.44 percent to USD 68.35 billion during FY25 compared to 11.11 percent decrease during the previous fiscal year. Besides, opening of import LC increased by 0.18 percent as well as settlement of import LC increased by 4.18 percent in FY25. Relaxation of import regulations like reduction of custom duties and easing the LC cash margin requirements by BB might have contributed to the positive growth of import during the reported period.

<sup>u</sup> = Data revised by NBR, Compiled by Statistics Department, Bangladesh bank.

**Inward Remittances** increased by 26.83 percent to USD 30.33 during FY25 compared to 10.65 percent increase during FY24. The consistent inflow of remittances can be linked to the interim government's initiatives aimed at persuading remitters to use formal banking channels instead of informal channels like hundi.

**Current account balance** improved and recorded a surplus of USD 0.15 billion during FY25 against the deficit of USD 6.60 billion during FY24. The surplus in the current account balance emerged from the surplus in secondary income especially from an increase in worker's remittance.

**Foreign exchange reserves** increased and stood at USD 31.77 billion as on 30 June 2025 from USD 26.71 billion as on 30 June 2024. After a long period the foreign exchange reserves has just started increasing. The consistent flow of higher remittances during a couple of months and increase of exports might have contributed to the increase in foreign exchange reserves.

**Headline Inflation Point-to-Point** and **Twelve-Month Average** decreased to 8.48 percent and 10.03 percent respectively in June 2025 compared to the previous month. Decrease in headline inflation can be attributed to a tight monetary policy regime continued since July 2023 and it is expected to further influence inflationary pressure in near future.

Detailed fortnightly data available up to 30 June 2025 is annexed herewith.
