## Concepts and Definitions

### **Foreign Direct Investment (FDI):**

Foreign Direct Investment is the category of international investment that reflects the objective of a resident entity in one economy obtaining a lasting interest in an enterprise resident in another economy (The resident entity is the direct investor and the enterprise is the direct investment enterprise). The lasting interest implies the existence of a long-term relationship between the direct investor and the enterprise and a significant degree of influence by the investor on the management of the enterprise. Direct investment comprises not only the initial transaction establishing the relationship between the investor and the enterprise but also all subsequent transactions between them and among affiliated enterprises, both incorporated and unincorporated. A direct investment enterprise is an incorporated or unincorporated enterprise in which a direct investor owns 10 percent or more of the ordinary shares or voting power for an incorporated enterprise or the equivalent for an unincorporated enterprise (IMF, Balance of Payment Manual, 5<sup>th</sup> addition, 1993, page-86). The components of FDI are: a) Equity capital b) Reinvested earnings and c) Intra-company loans.

A **foreign direct investor** is an individual, an incorporated or unincorporated public or private enterprise, a group of related individuals, or a group of related incorporated and/or unincorporated enterprise which has a direct investment enterprise - that is, a subsidiary, associate or branch - operating in a country other than the country or countries of residence of the foreign direct investor or investors.

A **direct investment enterprise** is defined as an incorporated or unincorporated enterprise in which a foreign investor owns 10 per cent or more of the ordinary shares or voting power for an incorporated enterprise or the equivalent for an unincorporated enterprise. A direct investment enterprise may be an incorporated enterprise - a subsidiary or associate company - or an unincorporated enterprise (branch). Direct investors may have direct investment enterprise which has subsidiaries, associates and branches in one country or in several countries.

In a **subsidiary enterprise**, a direct investor owns more than 50 percent of the shareholder's voting power; in an **associate enterprise** a direct investor owns at least 10% but not more than 50 percent of the shareholder's voting power and **branches** are wholly or jointly owned unincorporated enterprise either directly or indirectly owned by the direct investor.

## **Residents and Non-residents:**

**Residents** include all individuals, households, enterprises or other organizations operating in Bangladesh, regardless of whether they are citizens of the country or not, and/or are owned by Bangladeshi citizens or foreigners. These units have their centers of economic interest in Bangladesh. Branches, subsidiaries and affiliates of foreign banks and enterprises operating in Bangladesh and persons who normally live in Bangladesh for one year or more are Bangladeshi residents, regardless of citizenship.

**Non-residents** are individuals, households, enterprises or other organizations ordinarily domiciled in a country other than Bangladesh. Non-resident branches and subsidiaries of Bangladeshi banks and enterprises operating in another country are examples of non-residents, as are persons who do not normally live in Bangladesh.

## **Foreign Assets and Liabilities:**

An asset or liability must represent actual claims that are legally in existence. Foreign assets of resident enterprise/company/entity comprise its claims on non-residents and liabilities comprise its indebtedness to non-residents.

## **Equity Capital:**

Remittances received by the incorporated or unincorporated direct investment enterprises operating in Bangladesh on account of equity participation in those by the nonresident direct investors. Equity capital comprises:

*a) Ordinary Shares:*

This item represents the total paid-up capital against issue of ordinary shares.

*b) Revaluation & Capital Reserves:*

This item comprises revaluation reserve, capital reserve, non-remittable special capital reserve, non-distributable special reserve and premium on shares.

*c) Share Money Deposits:*

These are the deposits of the shareholders to get ordinary shares in future.

*d) Other Reserves:*

This item comprises tax holiday reserve, reserve for bonus share, general reserve, special reserve etc.

## **Reinvested earnings:**

It is the amount of profit retained for reinvestment.

## **Intra-company loans:**

Intra-company loans or intra-company debt transactions refer to short or long-term borrowing and lending of funds between direct investors (parent enterprises) and affiliate enterprises. The traditional distinction between short and long term maturity based on the formal criterion of original maturity retained.

**Short-term debt** is defined as debt with an original maturity of one year or less. It includes loans, overdrafts, suppliers' credit, buyers' credit, deferred payment etc. of a resident enterprise borrows from direct investors.

**Long-term debt** is defined as debt with an original maturity of more than one year. It includes loans, overdrafts, suppliers' credit, buyers' credit, deferred payment etc. of a resident enterprise borrows from direct investors.

**Trade credit and accounts payable (Liabilities):**

Trade Credits may arise due to *direct extension of credit* by buyers (nonresidents) to the reporting enterprise for goods and services transactions. It also arises due to *advance payments* by nonresidents to the reporting enterprise for "work that is in progress or to be undertaken". Trade Credit increases due to purchase (foreign) or import of goods (say, yarn, raw materials etc.) from non-residents and decreases when its value is paid. It is called accounts payable.

**Trade Credit and accounts receivable (Claims):**

Trade credits may arise due to *direct extension of credit* by suppliers (reporting enterprise) to non-residents for goods and services transactions. Trade credits increase due to export of goods to nonresidents and decreases when its value is received. It is called accounts receivable.

**Other debts:**

Other short-term debt covers money market instruments, such as bills, commercial paper, and bankers' acceptances that usually give the holder the unconditional right to receive a stated, fixed sum of money on a specified date. It also includes debt securities that have been sold under repurchase agreements. In long-term it also covers debt securities that have been sold under repurchase agreements and debt securities that have been lent under a securities lending arrangement.

**Bonds and notes:**

It covers bonds, debentures, and notes that usually give the holder the unconditional right to a fixed cash flow or contractually determined variable money income.

**Equity securities:**

A security is defined as an instrument that is traded or tradable. It covers all instruments and records acknowledging, after the claims of all creditors have been met, claims to the residual values of enterprises. Equity securities comprise:

*a) Ordinary Share:*

This item represents ownership share with full voting rights. Ordinary shares are usually issued in registered form.

*b) Preference share:*

Part of the share capital of a company that ranks after secured creditors but before ordinary shareholders in the event of liquidation. Preference rights are defined in the articles of association of the relevant company but may relate to dividend, voting rights, or distribution of surplus assets. There are two types of preference shares such as

*i) Participating Preference share*

These preference shares have further rights that are normally linked to the relevant company's profits or dividend payment on ordinary shares.

*ii) Other Preference share*

These will have the rights of standard preference shares but may also be:

- cumulative (i.e., income arrears are carried forward to the next payment date),
- convertible (into ordinary shares),
- redeemable (at a fixed date or contingent on a special event), or
- permanent (not redeemable except at issuer's option).

*c) Share Money Deposits:*

These are the deposits of the shareholders to get ordinary shares in future.

*d) Other:*

It covers shares in mutual funds and investment trusts, depository receipts etc.

**Currency and Deposits:**

These include domestic currency held by nonresidents and deposits held by nonresidents. Deposits may be in domestic and foreign currencies, the defining factor being it is held in a resident financial institution and owed to a nonresident.

**Operating profit and net income:**

In case of foreign direct investment in Bangladesh, the survey seeks information on the profit, net income, and retained earnings of the reporting enterprise (and its subsidiaries) attributable to foreign direct investors.

**Operating profit** includes profits from the operations of enterprises. In calculating operating profit, depreciation should be calculated at the written down replacement cost value; exchange rate gains and losses, special tax provisions (such as accelerated depreciation), and any extraordinary items should be excluded from the calculation. **Taxes** should be recorded when due without penalty.

**Net income** includes **income received** in the form of interest, dividends and the reinvested earnings attributable to major owners, **less** interest paid. **Major owners** of an enterprise include the head office in the case of a branch, the parent company in the case of a subsidiary and any enterprise in which an owner has directly or indirectly a 10 percent or more ownership interest.

Interest on debt should be reported on an accrual basis. In the case of instruments for which interest payments are made at maturity, interest accrued during the reporting period should be reported. For bonds and other deep-discounted instrument, the difference between the discounted issue price and the value at maturity should be treated as interest and reported as it accrues during the period.

**External Debt:**

Gross external Debt, at any specific time, is the outstanding amount of those actual current, and not contingent, liabilities that require payments of principal and/or interest by the debtor at some points in the future and that are owed to non-residents by residents of a country.

**Valuation Principles**

Data have been valued using the concept of the “own funds at book value (OFBV)”.

**Authority**

Article 69 of the Bangladesh Bank Order, 1972 (President’s Order No. 127 of 1972) authorizes Bangladesh Bank to request from natural or juridical persons including the government, such data or information as are required for proper execution of its responsibilities.

**Data Confidentiality**

Bangladesh Bank respects the right to privacy and confidentiality of the respondents, not publishing any statement or data of individual or corporate bodies without consent of the respondents concerned.

# Survey Report (January-June, 2012)

## 1. Survey Methodology:

Bangladesh Bank, as the central bank of the country, is responsible for compilation of FDI Statistics needed for drawing up balance of payments and international investment position of Bangladesh. The Statistics Department of Bangladesh Bank has been conducting an enterprise survey since 1995 to collect detailed information on foreign direct investment in Bangladesh. This survey is being conducted twice a year, covering the period January-June and July-December. This survey covers 100% foreign owned companies and joint-venture companies registered with Bangladesh Export Processing Zones Authority (BEPZA) and the Board of Investment (BOI) respectively. The registered projects which did not start operations till the end of the survey period are excluded from the survey. A prescribed survey questionnaire (FORM FI -1) is used to collect data from FDI enterprises situated both in EPZ and Non-EPZ areas. In compliance with the Bangladesh Bank's FE Circular No-21 of November 03, 2009 and Statistics Department Circular No-01 of August 14, 2012, the FDI enterprises are to submit the completed survey forms (FI - 1) through their designated banks for the period January-June and July-December by 30<sup>th</sup> September and 31<sup>st</sup> March respectively in each year. The survey covers FDI inflows and outstanding stock of investment by countries and sectors. It also covers stock position of Private Sector External Debt (PSED). For the data analysis, we are using Oracle BI Answers software of Enterprise Data Warehouse (EDW).

## 2. Reporting Status of FDI Enterprises

In order to conduct the current FDI survey for the period January-June, 2012, the updated lists of FDI enterprises have been collected from the Authorized Dealer Banks, Board of Investment (BOI) and Bangladesh Export Processing Zones Authority (BEPZA). FDI survey forms were sent to 1070 enterprises, among them, 303 enterprises are located in EPZ areas and the rest 767 are in Non-EPZ area. A total number of 958 (89.53%) enterprises submitted FDI returns, of which 285 from EPZs and 673 from Non-EPZ areas. FDI data in connection with the rest of 112 (10.47%) enterprises were not included in the survey report because of non-response. Among these 112 non-response enterprises for the current period 94 are located in Non-EPZ area. On the other hand, during the previous period July-December, 2011, a total number of 822 (78.73%) enterprises out of 1044 enterprises submitted their FDI returns. Among these 822 enterprises, 534 are located in Non-EPZ area and 288 located in EPZ areas. The rest of 222 enterprises which were not included in the survey report because of non-response. Though 112 enterprises did not submit FDI returns for the current period, the survey captured the maximum enterprises having large amount of FDI (Figure-1, Figure-2, and Table-1).

## 5. Position of Outstanding External Debt in Bangladesh:

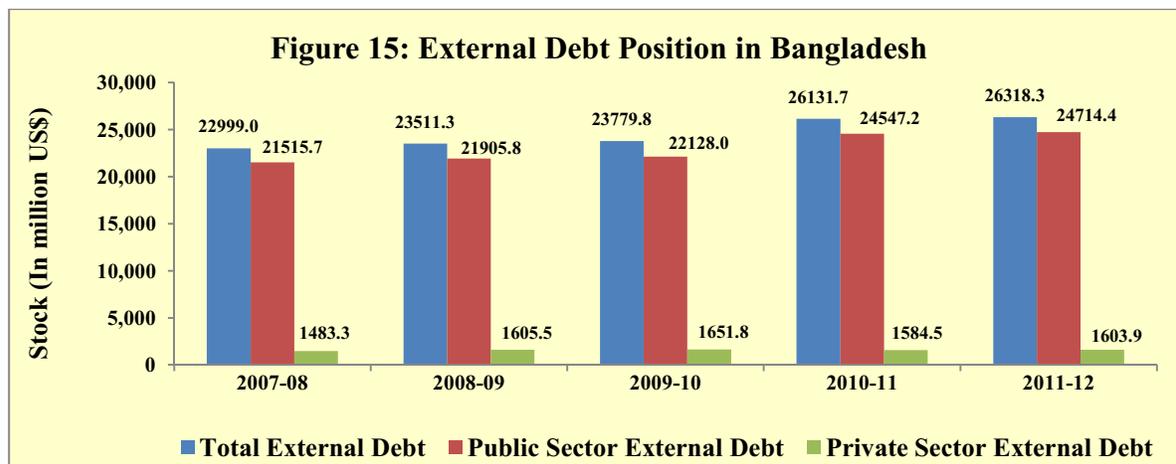

(a) Bangladesh's total stock of outstanding external debt as at end June, 2012 stood at US\$ 26318.3 million comprising public sector external debt US\$ 24714.4 million and private sector external debt US\$ 1603.9 million. The share of public sector external debt in the total external debt stood at 93.91% while the share of private sector external debt stood at 6.09% as at end June, 2012 (Figure-14). The trend shows that public sector external debt has increased steadily over the periods up to 2011-12 but private sector external debt has increased up to 2009-10 and moved downward as at end 2010-11 and then has increased again at 2011-12 (Figure-15, Table-6).

(b) External debt as at end June, 2012 recorded an increase of US\$ 186.6 million or 0.71% over end June, 2012 on account of significant increase of loans in Crude Oil and Air Craft against Public sector external debt in spite of decrease in IMF loan.

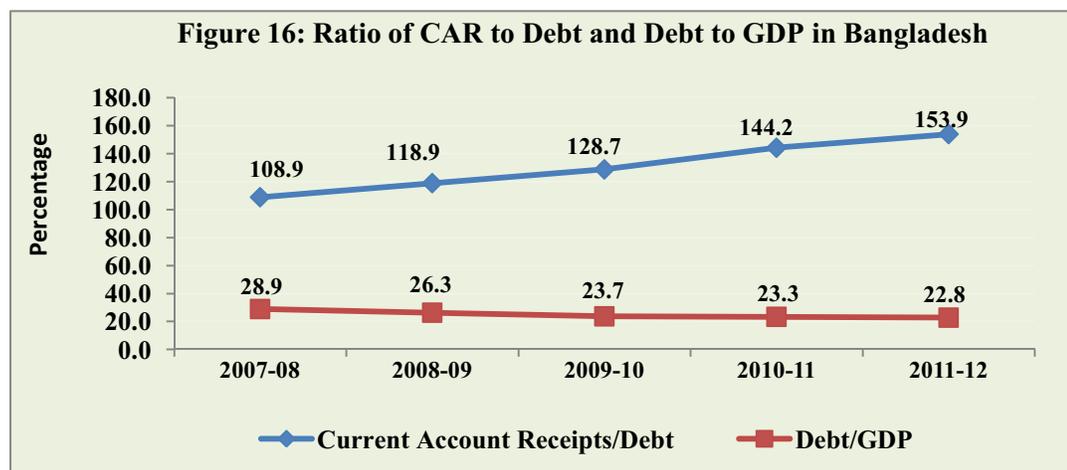

The public sector external debt increased by US\$ 167.2 million or 0.68% to US\$ 24714.4 million as at end June, 2012 compared to the increase of US\$ 2419.2 million or 10.93% as at end June, 2011.

Private sector external debt increased by US\$ 19.4 million or 1.22% to US\$ 1603.9 million as at end June, 2012 compared to the decrease of US\$ 67.3 million or 4.07% as at end June, 2011 (Figure-15, Table-6).

\* at book values in financial statements, which may differ from market value of stocks.

(c) An assessment of sustainability of the external debt has been carried out based on two important macroeconomic indicators viz. ratio of current account receipts (CAR) to debt and ratio of debt to GDP which were 153.9% and 22.8% respectively as at end June, 2012. The trend of debt to GDP ratio shows that it has been steadily decreasing while the ratio of current account receipts to debt has been steadily but significantly increasing over the periods with more than 100% coverage in last five years successively. It appears from the ratio analysis that the level of external debt is well managed and quite sustainable in Bangladesh (Figure-16, Table-6).
