Monthly Report on Agricultural and Non Farm Rural Credit Position

1. Preamble

The agricultural sector plays a significant role in Bangladesh's economy, contributing 11.85% to GDP and employing around 45% of the workforce while ensuring food security and meeting the nutritional needs of the growing population. Since the Liberation War, Agricultural production has increased more than threefold. Consequently, food production in Bangladesh has increased significantly in recent years, securing third position in rice, second in freshwater fish, second in jute and seventh in potato production. Among South Asian countries, Bangladesh stands immediately after India and Pakistan in food production. However, this sector is facing significant challenges due to climate change, reduction of arable land and inadequate financial support.

Overall, efficient financing strategies, adoption of modern technologies, use of high-yielding and climate-resilient crop varieties, crop diversification and implementation of climate-smart production processes can significantly enhance agricultural productivity and contribute to the long-term sustainability of Bangladesh's agricultural sector.

To facilitate adequate financial support for the agricultural and rural sectors, Bangladesh Bank has a mandate (Bangladesh Bank order, 1972) to formulate effective credit policies. In this regard, the Agricultural Credit Department-1 of Bangladesh Bank publishes the 'Agricultural & Rural Credit Policy & Program' annually. For FY 2026-2027, a target of BDT 60,000.00 crore has been set for disbursement as agricultural and rural credit through 58 participating banks including 03 Specialized banks, 06 State-owned commercial banks, 08 Foreign banks, 32 conventional Private commercial banks and 09 Islamic banks.

2. Performance of Agricultural Credit over the Last Decade

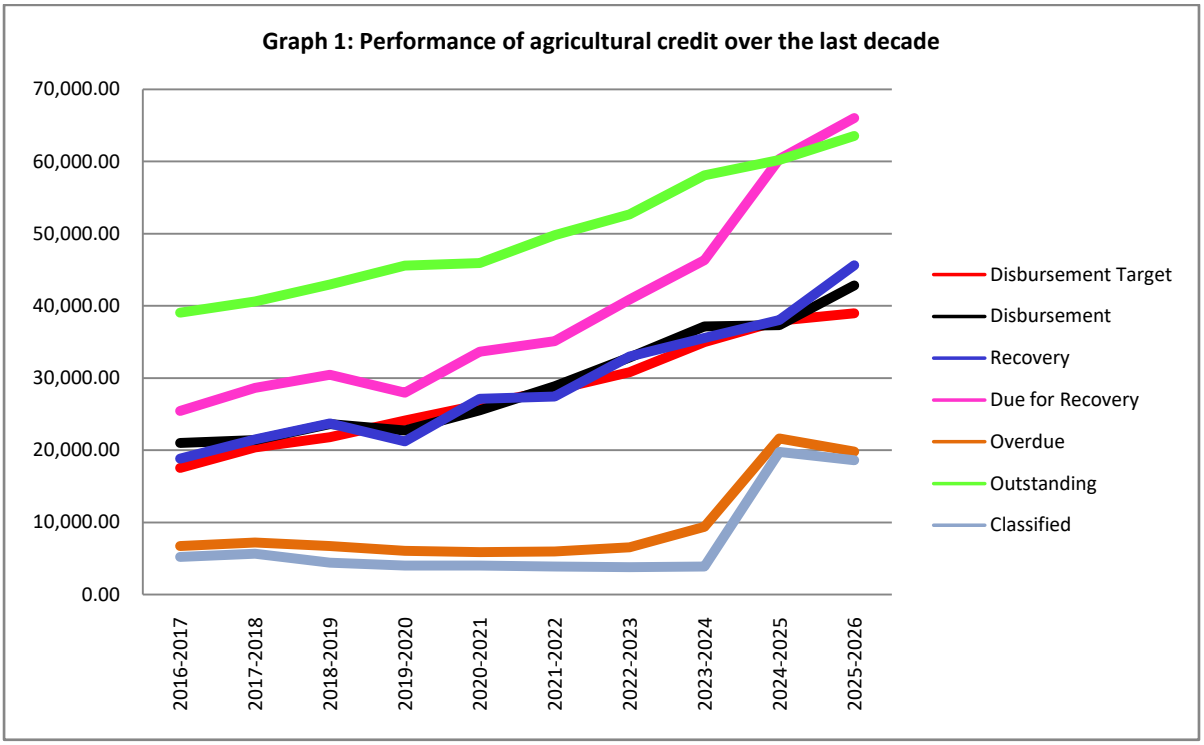

Over the last decade disbursement, recovery, due for recovery, overdue, outstanding and classified of agricultural credit all increased at a steady rate. From BDT 20,998.70 crore in FY2016-2017 disbursement has increased to BDT 42,834.16 crore in FY 2025-2026. Subsequently recovery has increased from BDT 18,841.16 crore to BDT 45,626.93 crore, due for recovery increased from BDT 25,470.19 crore to BDT 66,025.75 crore, overdue increased from BDT 6,708.11 crore to BDT 19,807.33 crore, outstanding increased from BDT 39,047.57 crore to BDT 63,574.38 crore and classified has increased from BDT 5,240.78 crore to BDT 18,578.47 crore.

5. Bangladesh Rural Development Board (BRDB)

For FY 2026-2027, BRDB has set a target of BDT 1,506.65 crore to be disbursed in agriculture sector. Subsequently BRDB's agricultural credit disbursement in August, 2026 is BDT 207.91 crore which is 6.27% higher than August, 2025. Moreover, recovery has increased by 9.16% amounting to BDT 223.81 crore in August, 2026 (Annexure-10).

6. Conclusion

In August 2026, total agricultural credit disbursed through participating banks and BRDB is BDT 7,065.86 crore (BDT 6,857.95 crore by 58 participating banks; BDT 207.91 crore by BRDB) which is 40.71% higher than that of August 2025 (Total disbursement of August 2025 was BDT 5,021.67 crore). This indicates that the starting of FY 2026-2027 for agricultural credit disbursement is better than that of same time last year. However, despite this positive scenario, the looming reality of large amounts of overdue and classified loans compels us to prioritize their recovery with utmost importance. To achieve efficient agricultural financing, we must be vigilant about recovery process and management of defaulted loans.
