## Monthly Report on Agricultural and Non Farm Rural Credit Position

### 1. Preamble

The agricultural sector plays a significant role in Bangladesh's economy, contributing 11.71% to GDP and employing around 46% of the workforce while ensuring food security and meeting the nutritional needs of the growing population. Since the Liberation War, Agricultural production has increased more than threefold. Consequently, food production in Bangladesh has increased significantly in recent years, securing third position in rice, second in freshwater fish, second in jute and seventh in potato production. Among South Asian countries, Bangladesh stands immediately after India and Pakistan in food production. However, this sector is facing significant challenges due to climate change, the reduction of arable land and inadequate financial support.

Overall, efficient financing strategies, adoption of modern technologies, use of high-yielding and climate-resilient crop varieties, crop diversification and implementation of climate-smart production processes can significantly enhance agricultural productivity and contribute to the long-term sustainability of Bangladesh's agricultural sector.

To facilitate adequate financial support for the agricultural and rural sectors, Bangladesh Bank has a mandate (Bangladesh Bank order, 1972) to formulate effective credit policies. In this regard, the Agricultural Credit Department-1 of Bangladesh Bank publishes the 'Agricultural & Rural Credit Policy & Program' annually. For FY 2025-2026, a target of BDT 39,000.00 crore has been set for disbursement as agricultural and rural credit through 58 participating banks including 03 Specialized banks, 06 State-owned commercial banks, 08 Foreign banks, 32 conventional Private commercial banks and 09 Islamic banks.

### 2. Achievement of Target up to May, 2026 of FY 2025-2026

The agricultural credit disbursement target for 58 participating banks in FY 2025-2026 has been set at BDT 39,000.00 crore. For the FY 2025-2026, total disbursement at the end of May, 2026 reached BDT 38,076.61 crore which is 97.63% of the total target (Annexure-1). In FY 2025-2026, Specialized banks have achieved 110.73% against the target of BDT 10,223.00 crore (Annexure-5); subsequently, State-owned commercial banks have achieved 95.76% against the target of BDT 3,657.00 crore (Annexure-6), Foreign commercial banks have achieved 104.05% against the target of BDT 1,593.00 crore (Annexure-7), Private commercial banks have achieved 94.88% against the target of BDT 17,106.00 crore (Annexure-8) and Islamic banks have achieved 83.59% against the target of BDT 6,421.00 crore (Annexure-9) at the end of May 2026.

### 3. Performance of Agricultural and Rural Credit up to May, 2026

#### 3.1 Month-wise Disbursement

In FY 2025-2026, disbursement of agricultural credit increased steadily, achieving the highest disbursement of BDT 4,915.49 crore in December, 2025. However disbursement declined sharply by 31.82% in January, 2026 and kept decreasing until April, 2026. In April, 2026 disbursement increased by 21.91% compared to the previous month, indicating a temporary turn around. Nevertheless, the upward trend has not sustained, as disbursement fell again by 3.37% in May 2026.

#### 5. Bangladesh Rural Development Board (BRDB)

For FY 2025-2026, BRDB has set a target of BDT 1,486.10 crore to be disbursed in agriculture sector. Subsequently BRDB's agricultural credit disbursement in July-May, 2026 is BDT 1,176.10 crore which is 5.85% lower than May, 2025. However, recovery has increased by 2.98% amounting to BDT 1,160.51 crore in May, 2026 (Annexure-10).

#### 6. Conclusion

In July-May of FY 2025-2026, total agricultural credit disbursed through participating banks and BRDB is BDT 39,252.71 crore (BDT 38,076.61 crore by 58 participating banks; BDT 1,176.10 crore by BRDB) which is 17.31% higher than that of July-May of FY 2024-2025 (Total disbursement of July-May of FY 2024-2025 was BDT 33,460.79 crore). This indicates that disbursement trend in FY 2025-2026 is better than that of same time last year. This promising disbursement scenario provides a glimpse of the better future for agricultural financing in our country. However, despite this positive scenario, the looming reality of increased overdue and classified loans compels us to prioritize their recovery with utmost importance. To achieve efficient agricultural financing, we must be vigilant about recovery process and management of defaulted loans.
