## **7. Current Account Balance**

It is defined as the balances in trade, services, income and current transfer, accounts in the BOP. This definition is in accordance with the 5th edition of the BOP Manual issued by the IMF.

## **8. Revised Interest Rate Policy on Deposits and Lending**

Under the financial sector reform programs, a new system of interest rate determination was established with deposit & lending rates that better reflects market conditions. The main objective of the new interest rate policy is to introduce flexibility into the deposit rates permitting individual banks to establish their own rates fixed by themselves. Banks were however, free to adjust their own rates with effect from February 19, 1997.

Further, flexibility in the interest rate policy was introduced from July 12, 1999 permitting banks to differentiate interest rates to individual borrowers except for lending to exporters only. For other sectors, lending rates would be decided by the banks themselves.

Apart from the conventional deposit and lending rates, the Islamic banks in Bangladesh have been operating their banking transactions in line with the Islamic Shariah systems of interest-free policy. Under this policy, investment-income of the bank is shared with the mudaraba depositors according to a pre-agreed profit sharing ratio to ensure a reasonably fair rate of return on their deposits which is shown in Table- XVI.
