- Bangladesh Bank sold a net of USD 715.38 million in the foreign exchange market during July-February of FY25 compared to a net of USD 7570.57 million in the same period of previous fiscal year.

- Bangladesh Bank has introduced a Crawling Peg Exchange Rate System for the spot purchase and sell of USD with a Crawling Peg Mid Rate (CPMR) at Tk.117.00 per USD in May 2024. Scheduled banks are instructed to purchase and sell dollars freely around the CPMR to both customers and interbank since May, 2024.
- Along the same line of intensions for modernizing exchange rate policy and monetary policy on 31st December 2024 BB has launched a new foreign exchange intervention strategy and publishing daily reference benchmark based on weighted average of freely quoted exchange rates in the market transactions. In addition, BB has instructed authorized dealers to provide information on all foreign exchange transactions at and avobe USD 1.00 lac twice a day and make the business day's exchange rate visible to the customers on digital screen as well as on their website.
- Moreover, on 2nd January 2025 with the intension of streamlining foreign exchange operations and eliminating discriminatory currency practices BB introduced a maximum allowable spread of one Taka between buying and selling rates for foreign currencies, with a uniform spot rate irrespective of size of transactions.
- The Nominal Effective Exchange Rate (NEER)^{1/} index decreased from 71.00 in January 2025 to 70.67 in February 2025.
- The Real Effective Exchange Rate (REER)^{1/} index decreased slightly from 103.04 in January 2025 to 101.86 in February 2025. The fall of the index indicates a marginal gain in competitiveness of BDT in international trade driven to favorable price differential between Bangladesh and its trading partners.
