## Remittance Inflows in Bangladesh (January-March 2023)

Bangladesh's economy relies heavily on its expatriate earnings, which is the second-biggest source of foreign currency earnings. Bangladesh's remittance inflows in January-March 2023 witnessed a high influx (14.97 percent) as expatriates sent more money home ahead of Ramadan and major festivals, despite the world's entanglement with elevated inflation. In addition, the fiscal incentives and domestic monetary supportive policies by the government and Bangladesh Bank also play a pivotal role in returning the remittance inflows to a positive trend.

The accumulated total inflow of remittances stood at USD 16035.08 million during July-March period of FY'23 which was 4.82 percent higher than that of USD 15298.26 million of the same period of FY'22 (Table-1). The inflow of remittances and its percentage shares in terms of GDP, exports and imports that experienced a big setback in FY'22 due to pandemic situation of COVID-19 are anticipated to achieve a positive turn around in the current fiscal year.

### Category-wise Overseas Employment

Based on occupation and skills, expatriates can be categorized into four groups: professionals, skilled, semi-skilled and un-skilled. A large number of Bangladeshi expatriates are un-skilled and this number stood at 4.54 lac during 2021. The number of skilled expatriates stood at 1.28 lac during the same period (Annexure Table-1).

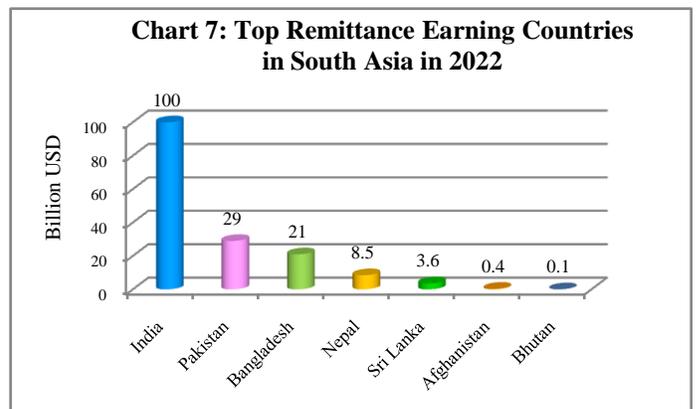

Source: Bureau of Manpower, Employment and Training, Bangladesh.

Data on skill-wise overseas employment showed that the highest number (73.57 percent) of expatriates were un-skilled in 2021 followed by skilled (20.66 percent), semi-skilled (3.15 percent) and professional (only 0.13 percent), (Chart-6). Trends of skill-wise and gender-wise migration have been shown in Annexure Table-1.

### Global Comparison

In South Asia, remittance inflows are anticipated to grow by 3.5 percent in 2022 due to heavy lift from India and Nepal according to the report of the World Bank titled ‘Migration and Development Brief 37, November 2022’. India’s remittance inflows soared up USD 100 billion in 2022 made a milestone. Remittances to Nepal are predicted to raise USD 8.5 billion in

## Measures Taken by the Government and the Bangladesh Bank

To encourage the remittance inflows through the banking channel, Bangladesh government and Bangladesh Bank have taken a number of measures of which some important are stated below:

- The government announced 2 percent cash incentive for the first time for inward foreign remittance through banking channel which became effective from 1 July 2019. Cash incentive for inward remittances has been increased to 2.5 percent from 2 percent which became effective from 1 January 2022.

Moreover, it has been decided that the United Nations peace keeping mission officials of army/navy/air-force/ police who are engaged in different missions of the world will get the cash incentive against their foreign earnings at 2.5 percent for sending it through banking channel into the country with effect from 1 January, 2022.

- For simplification of the procedure of paying cash incentive, Bangladesh Bank (BB) has given some instructions to banks which includes:
  - a) Remitters' documents will have to be submitted to his /her banks by the remittance senders banks;
  - b) Remittance sender bank will verify the documents by itself and send the confirmation to the receiver bank to release the cash incentives at quickest possible time;
  - c) On the basis of the confirmation, receiver bank will release incentive to the sender bank;
  - d) The remittance receiver bank will collect and verify documents by itself in case of the same receiver bank and sender bank.

- As per instructions, Wage Earners' Remittance data have to be submitted through Rationalized Input Template (RIT). The statement of money paid should be submitted on monthly basis following a specific form regarding 2 percent cash incentive for inward remittance through formal channel. The information of expatriates will have to be preserved at the database format and banks will have to provide the required information as early as possible following the online - RITs (T\_ME\_M\_REMIT\_INCEN) format. Documents required to be submitted on monthly basis within the 10<sup>th</sup> day of next month (through the web portal of Bangladesh Bank).
- To facilitate inward remittances, it has been decided that declaration on Form-C under GFET shall not be required for inward remittances up to 20,000 US dollar or its equivalent.

In addition, the government and Bangladesh Bank have taken various proactive steps which include enhancing economic and working conditions in the source countries, waiving the money transfer fees charged by local banks for expatriate remitters, allowing the MFS to participate in the remittance collection and distribution process, and simplifying the remittance repatriation and cash incentive distribution processes regarding the high inflow of remittances and higher overseas employment. The above-mentioned steps are now helping to encourage Bangladeshi migrant workers to send remittances into their home country through formal banking channels.
