## Introduction

Bangladesh is a South Asian country with approximately 164 million population and its economies significantly dependent on agriculture. However, it's a great satisfaction for the country that, Readymade Garments (RMG) sector of Bangladesh has risen as the broad earner of foreign currency. This sector creates about 4 million employment opportunities and contributes significantly to the GDP. Readymade garment (RMG) of Bangladesh is powered by young workers, where most of them are women.

Country's total export earning has increased over the time with continued high share of RMG (Figure.1). The RMG sector of Bangladesh has earned USD 28,149.9 million in FY17 with 0.2 percent growth from the previous fiscal year (data from Export Promotion Bureau). Despite high price decline in international market, exporters and analysts have attributed this growth to political calmness during the year, increased productivity, entrepreneurs' resilience and improvement of workers' safety standards in factories. Of the total earnings, woven garments and knitwear constituted USD 14392.59 million and USD 13757.3 million respectively in FY17. Bangladesh received more than three fourth (about 82%) of total export earnings from Readymade garments (Woven and Knitwear) during the first half of FY18. Total export earnings from Readymade Garments during October-

December FY18 increased by 6.78 percent and 8.30 percent higher than the previous quarter,

and the corresponding quarter of previous fiscal year respectively. The total export of RMG against the target has 5.87 percent higher in October-December FY18. Data on product wise export earnings showed that 40.85 percent and 41.59 percent of total export earnings were received from woven garments and knitwear respectively in the first half of FY18 (Figure 2). In FY17, the shares of these products were 41.53 percent and 39.70 percent respectively.

## Quarterly Performance of RMG: October-December FY17

### Woven Garments

Export earnings from woven garments stood at USD 3780.35 million during the second quarter of FY18, which is 11.28 percent and 4.11 percent higher than previous quarter and the same quarter of previous fiscal year respectively. Moreover, it is 5.07 percent higher than export target for the quarter respectively (Table-1). Quarterly export earnings from woven garments are depicted in Graph-1.

### Knitwear Garments

Export earnings from knitwear garments stood at USD 3848.32 million during the second quarter of FY18, which is 2.71, 12.8 and 6.68 percent higher than the previous quarter, the same quarter of previous fiscal year and the export target for the quarter respectively (Table-1). Quarterly export earnings from Knitwear garments are shown in Graph-2.

In context of several recent disasters in RMG factories, USA and EU countries have shown their reservation to import from Bangladesh as well as for some cases imposed various RMG factories and labor securities related rules and instructions. The Government and the BGMEA have signed various contracts with some international organizations and taken a number of measures for ensuring securities and modernization of the RMG Sector, to engage strong lobbyist in different RMG markets in the USA in order to encourage favorable treatment of the US administration for Bangladeshi RMG import. And build up good relationship between the employer and the employees.

Through all these initiatives stated above, it is expected that the RMG sector will be able to make a significantly higher contribution to our GDP with a boost in export.
